## LIST OF ANNEXES

Annexure- I: Photographs of Meetings and Field Activities of Different Components .....	1
Annexure- II: Updated Gap Progress- Up to June. 2024 .....	3
Annexure- III: List of DPs Who Received Land Compensation During Jan-Jun2024 .....	11
Annexure- IV: Sample of Power of Attorney .....	22
Annexure- V: Sample of Land Compensation Cheque and Receipt from the DP.....	23
Annexure- VI: ADB,s Checklist of Involuntary Resettlement.....	24
Annexure- VII: ADB,s Check List of Indigenous Peoples (IPS).....	26

## EXECUTIVE SUMMARY

### Chapter1:

#### ES.1. Project Background

1. Water is a critical resource for sustainable economic development of Balochistan. The Government of Balochistan (GoB) formulated Integrated Water Resources Management (IWRM) Policy to improve efficiency of surface and ground water and the Project supports in implementation of the Policy. The Policy provides a comprehensive framework for the province to address the issues of water management and development in the context of basin approach, with water harvesting, and groundwater recharging as an integral part of watershed management. About 11 potential subprojects out of over 300 long lists in the Zhob and Mula river basins were selected for potential Asian Development Bank (ADB) financing based on a set of criteria such as water and land availability, economic viability, and a balanced approach to extending development support to different tribal groups. The proposed project will construct and improve irrigation land of about 17,592 hectares (ha), and benefit about 42,900 farmers in the Balochistan province.

#### ES.2. Project Objective

2. The project of Balochistan Water Resources Development Sector Project (BWRDSP) is to increase agricultural production in the project area by: (1) improving and constructing irrigation infrastructure, (2) developing command area and establishing and/or rehabilitating watershed protection and (3) strengthening institutional capacity.

#### ES.3. Project Components

Sr.No.	Name of Subproject	Type of Impact	Reason	Type of Document Prepared
<b>Zhob River Basin (ZRB)</b>				
1	Siri Toi Dam, settled land	With LAR impact	Permanent private land acquisition is involved.	LARP
	Siri Toi dam, unsettled land/area	Without LAR	Land belonged to the State	SDDR
2	Killi Sardar Akhter PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
3	Ahmadzai PIS+FIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
4	Sabakzai Dam Command Area Rehabilitation Works	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
<b>Mula River Basin (MRB)</b>				
1	Churri Infiltration Gallery	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
2	Karkh Valley Dev. Scheme	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
3	Manyalo, Raiko & Rind PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR

Sr.No.	Name of Subproject	Type of Impact	Reason	Type of Document Prepared
4	Kharzan-Hatachi Infiltration Gallery	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
5	Pashta Khan & Grambowad PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
6	Farmers Managed PIS/FIS Scheme Improvement		Within existing ROW belonged to irrigation department, GOB	SDDR

## Chapter 2

- Component wise LAR impacts has been provided above showing LAR impacts and safeguard plans whether need to prepare LARP/RP/SDDR.

### ES.4. Institutional Arrangements for Implementation

- The PMO-Irrigation Department is the responsible for the implementation of all subprojects including LARP of Siri Toi Dam Sub-project.
- The coordination involved for various institutions for the implementation of LARP include BID (Executing Agency), and other line departments, such as Revenue, Forest, Agriculture, On-farm Water Management and Livestock. The set up of the BWRDSP is summarised as follows while the details is provided in the document under Chapter 8:

### ES.5. Balochistan Irrigation Department (BID)

- A project management / project implementation unit (PMO/PIO) have been established in BID to oversee general project execution. Within the PIO.

### ES.6. Social and Environmental Safeguards Unit (SESU)

- SESU will have the safeguards related technical support from the project supervision consultants. The social safeguard management staff in SESU will include a Deputy Director Resettlement and a Deputy Director Social and Gender.

### ES.7. External Monitoring Agent (EMA)

- The main objective of the EMA process is to provide a third-party independent review of LARP implementation and provide necessary recommendations.

### ES.8. Project Design and Supervision Consultants/ Project Implementation Consultant

- The PIO-BWRDP will be assisted by the Project Design and Supervision Consultants/Project Implementation Consultant who will be responsible for preparing/reviewing the detail design of the subprojects and will assist the PMU/PIU during preparation, updating, implementation and monitoring of the LARP.

### ES.9. Local/ District Government

10. Besides, land administration authority discussed above, other line department of local/district government that will play a vital role in LAR planning include, Buildings and Roads department, Agriculture Department and Forest Department.

### ES.10. The ADB

11. ADB will review all LARP/SDDRs and confirm their responsiveness to ADB's safeguards requirements. In cases where these do not meet ADB's requirements, ADB can advise for additional assessment and improvement of the LARP/SDDRs to comply ADB's safeguards requirements. ADB will also conduct periodic social safeguards review.

### ES.11. LAR Coordination Committee

12. At PMO level a Land Acquisition and Resettlement Coordination Committee will be constituted consisting of Director/Deputy Director Social SESU, Additional Deputy Commissioner/LAC for respective district, representative (not below the level of deputy district officer) of Irrigation, Agriculture, Forest and C&W departments with resettlement specialist (mobilized through PIC) as secretary to the LARCC.

### ES.12. Consultations Conducted

13. Although, most of the grant components were completed up to December 2023 and many consultations were arranged with males and females. The targets were achieved of grants components like i) installation of drip Irrigation system through solar, ii) provision of livestock to poorer women, iii) provision of olive oil extraction plants, iv) provision of fruit/vegetable plants at household level and provision of solar dryer to individual woman. This was a result of convincing them through meaningful consultations. The training target has also been achieved due to close contact and consultations.
14. Similarly, consultations on CAD works were arranged from January to April 2024. Consultation and meetings were held with the DPs of Killi Hazrat Saheb to receive their land compensation.

### ES.13. Formation of GRM and GRCs

15. Since December 2020, the GRM was notified and after that, GRCs were also formed at village level for all subprojects. This will help to resolve the issues at local level without disturbing project activities. The details are provided in the Table 3-3 and 3-4.

### ES.14. Complaints Noted During the Reporting Period

16. The complaints were received from Kharzan-Hatachi subproject, MRB Khuzdar, Killi Sardar Akhter subproject and Killi Hazrat Saheb, Siri Toi Dam subproject Zhob. The complaints of Kharzan-Hatachi subproject and Killi Sardar Akhter subproject have been resolved. While the complaint from Killi Hazrat Saheb is still un-resolved and in process. The details of these complaints are provided in the Section 9.8 of the document.

**Chapter 3****ES.15. Internal Monitoring of LARP/SDDR**

17. Keeping in view the monitoring indicators, periodical monitoring of ongoing subprojects is regularly conducted. On the basis of internal monitoring data, QPRs and SSMRs are prepared and being submitted to the Client/ADB. The main indicators are provided in the document under section 2.2.

**Chapter 4****ES.16. Key Findings of the Monitoring Report****(i) Implementation of LARP of Siri Toi Dam Subproject, Zhob**

18. The land compensation was started in January 2024 and the status up to June 2024 is being provided in the following Table 3-2. Land compensation has been disbursed Rs. 25.12 million to 388 DPs. The land compensation is summarized in the following Table.

Total HHs	Estimated DPs (No.)	Land compensation up to June 2024		%age of land compensation		Total land to be acquired (acres)	Land acquired (acres)
		DPs	Amount in million	Total land budget (million)	%age of payment		
113	450	388	25.12	28.23	89	81	71 (88 %)

19. The number of 450 DPs is estimated, out of which 388 are paid and reported in Annexure III.. Remaining may be 62 or more or less depend upon the final list after mutation. The social team visited project area to contact with the remaining unpaid DPs. The concerned patwari confirmed that the DPs belonged to one large household and their mutation is in process. The matter was also discussed with the DC. He instructed the revenue staff to follow the DPs to complete payment process.

**(ii) Vulnerable DPs and Payment of Vulnerable Allowance**

20. There are 09 DPs identified as vulnerable as well. The matter was already discussed with the PMO. For new fiscal year, the account of PMO has opened. Payment to these DPs is being arranged on priority basis. The list is provided in the Table 3-3 of the document.

**(iii) SDDR of ICB-01 Under CAD Component**

21. After detailed field survey and meetings with the locals regarding captioned subject, a comprehensive SDDR was prepared and was submitted and got approved. The main feature of the report is mentioned below:

Sr. No.	Type of Land	Acres	Killi	Name of Tribes/sub-tribes, who own the land of command area.	Land owners of settled area
1	Settled land	3798	Ahmad khel/Hazrat Sahib	Ahmad Khel, Mala Khel, Karezai, Payenda Khel, Shadi Kahol, Kamal Kahol, Gandher Kahol, Mala Yahya Kahol, Mehmood	1500

Sr. No.	Type of Land	Acres	Killi	Name of Tribes/sub-tribes, who own the land of command area.	Land owners of settled area
				Kahol, Zala Khan Kahol, Khani Kahol, Babakar Khel Kahol, Manjoo Kahol	
	Settled land	177	Erabzai/Gadai Khel	Mandokhel, Dawood Khel, Erabzai, - Saido Khel, Gadai Khel, - Ahmad Khel Erabzai, Jalal Khel, Kakazai, Manak Khel, Shah Lezai, - Shahozai, - Shahozai, Mir Ali Khel, Bai Khel.	265
2	Un-settled land	6025	Tribes of both killi	Having customary rights of all above tribe/sub tribes to use the land.	-
<b>Total</b>		<b>10000</b>			<b>1765</b>

(iv) **Other Findings:**

- No residential settlement or amenities in ROW area.
- No public structure/fixture is under project impact.
- No indigenous peoples found in the area

(v) **Implementation of Gender Action Plan (GAP)**

22. Provision of livestock to 138 women in both river basins, 100 % target was achieved. The detail is provided in the Table. The updated progress is shown in Table 4-2.

River basin	Total target of women (No.)	Total Nos. of women received ruminant up to Dec. 23 (Nos.)	Progress (%)
MRB	69	69	100
ZRB	69	69	100
<b>Total</b>	<b>138</b>	<b>138</b>	<b>100</b>

23. During 43 training sessions, capacity building of 340 females was conducted.

Training Topics	No. of Trainings imparted	No. of Male participated	No. of female participated
High-value Agriculture farming	15	391	0
Operation and maintenance of solar panels, Drip irrigation & efficient use of water	8	200	0
Kitchen Gardening	4	0	100
Pre-post harvesting management agribusiness	6	100	50
Cultivation of improved/hybrid vegetable seed	2	60	0
Livestock management and production	8	0	190
<b>Total</b>	<b>43</b>	<b>751</b>	<b>340</b>

## 1 PROJECT DESCRIPTION

### 1.1 GENERAL

24. Water is a critical resource for sustainable economic development of Balochistan. The Government of Balochistan (GoB) formulated Integrated Water Resources Management (IWRM) Policy to improve efficiency of surface and ground water and the Project supports in implementation of the Policy. The Policy provides a comprehensive framework for the province to address the issues of water management and development in the context of basin approach, with water harvesting, and groundwater recharging as an integral part of watershed management. About 11 potential subprojects out of over 300 long lists in the Zhob and Mula river basins were selected for potential Asian Development Bank (ADB) financing based on a set of criteria such as water and land availability, economic viability, and a balanced approach to extending development support to different tribal groups. The proposed project will construct and improve irrigation land of about 17,592 hectares (ha), and benefit about 42,900 farmers in the Balochistan province.

### 1.2 PROJECT OBJECTIVE

25. The project of Balochistan Water Resources Development Sector Project (BWRDSP) is to increase agricultural production in the project area by: (1) improving and constructing irrigation infrastructure, (2) developing command area and establishing and/or rehabilitating watershed protection and (3) strengthening institutional capacity.

### 1.3 PROJECT SCOPE

26. The project consists of 11 subprojects; 5 in Zhob and 6 in Mula river basins. The subprojects relate to improvement in irrigation system and construction of Siri Toi Dam in Zhob basin. The list of 11 subprojects with the current status is as below in Table 1-1:

**Table 1-1: Proposed Subprojects and Current Status**

Sr.	Name of Subproject	Type of Impact	Reason	Type of Document to be Prepared
<b>Zhob River Basin (ZRB)</b>				
1	Siri Toi Dam, settled land	With LAR impact	Permanent private land acquisition is involved.	LARP
	Siri Toi dam, unsettled land/area	Without LAR	Land belonged to the State	SDDR
2	Killi Sardar Akhter PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
3	Ahmadzai PIS+FIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
4	Sabakzai Dam Command Area Rehabilitation Works	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
<b>Mula River Basin (MRB)</b>				
1	Churri Infiltration Gallery	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR

Sr.	Name of Subproject	Type of Impact	Reason	Type of Document to be Prepared
2	Karkh Valley Dev. Scheme	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
3	Manyalo, Raiko & Rind PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
4	Kharzan-Hatachi Infiltration Gallery	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
5	Pashta Khan & Grambowad PIS	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR
6	Farmers Managed PIS/FIS Scheme Improvement	Without LAR	Within existing ROW belonged to irrigation department, GOB	SDDR

27. The subprojects of Zhob basin are: Ahmadzai PIS+FIS; Killi Sardar Akhter PIS; Sabakzai Command Area Development; Farmers managed PIS/FIS Scheme Improvement and Siri Toi Dam. The Zhob basin projects will bring 4207 ha new area under irrigation from Siri Toi Dam and will improve irrigation system for 4091 ha area. Ground water recharge of 4091 ha and Khushkaba farming of 561 ha will be additional benefits of Zhob basin subprojects implementation.

28. The subprojects of Mula basin relates to improvement in irrigation system which are: Churri Infiltration Gallery; Kharzan-Hatachi Infiltration Gallery; Pashta Khan & Grambowad PIS; Karkh Valley Development; Manyalo, Raiko & Rind Ali PIS; and Farmers Managed PIS/FIS Scheme Improvement. The project will bring 1782 ha new area under irrigation and will improve irrigation system for 5673 ha area of Mula river basin. It will further improve 1278 ha under Khushkaba<sup>1</sup> farming and will recharge ground water of 321 ha.

## 1.4 PROJECT OUTPUTS

### 1.4.1 Output-1

29. Irrigation infrastructure and watershed protection constructed and/or rehabilitated. The output will construct, upgrade, or rehabilitate (i) Siri Toi Dam with storage of 30 Million Cubic Meter (MCM), including a spillway and a water intake; (ii) weirs and infiltration galleries; (iii) about 276 kilometers of irrigation network, including head works, oftakes, sluice gates, other associated structures, and livestock drinking facilities; (iv) infrastructure to reduce flood risks to irrigation canals and the command area; and (v) facilities to increase women's access to water for domestic use, such as washing pads and water collection points. It will also support watershed protection for about 4,145 ha, including through (i) the rehabilitation of trees and grasses in forests; and (ii) land and water conservation activities, such as check dams, water harvesting structures, and small storage ponds for plantation and/or groundwater recharge. The updated progress of output-1 is as below Table 1-2.

<sup>1</sup> "Dry land farming" area with limited water resources relying primarily on rain I called Khushkaba

**Table 1-2: The Updated Progress of Output-1**

Sr.	Name of Subproject	Type of Subproject	Progress
<b>Zhob River Basin (ZRB)</b>			
1	Siri Toi Dam, settled land	Construction of new irrigation system	Land acquisition in progress
	Siri Toi dam, unsettled land/area		Construction in progress
2	Killi Sardar Akhter PIS	Rehabilitation of Existing irrigation system	Construction in progress
3	Ahmadzai PIS+FIS	Rehabilitation of Existing irrigation system	Construction completed
4	Sabakzai Dam Command Area Rehabilitation Works	Rehabilitation of Existing irrigation system	Contract in process
<b>Mula River Basin (MRB)</b>			
1	Churri Infiltration Gallery	Rehabilitation of Existing irrigation system	Contract awarded
2	Karkh Valley Dev. Scheme	Rehabilitation of Existing irrigation system	Construction in progress
3	Manyalo, Raiko & Rind PIS	Rehabilitation of Existing irrigation system	Construction in progress
4	Kharzan-Hatachi Infiltration Gallery	Rehabilitation of Existing irrigation system	Construction in progress
5	Pashta Khan & Grambowad PIS	Rehabilitation of Existing irrigation system	Construction in progress

#### 1.4.2 Output-2

30. Command area established and/or improved. This output will support the development of about 16,592 ha of command area, including 1,839 ha for khushkaba (rainwater harvesting) farming. It will involve the (i) construction and rehabilitation of secondary and tertiary canals; (ii) construction of lined watercourses; (iii) improvement of on-farm water management and agronomic techniques, such as land leveling and irrigation scheduling; (iv) construction of a kacha (desert) track and access roads; (v) construction of rainwater harvesting and storage facilities; (vi) provision of farm machinery; and (vii) provision of training on sustainable farming.
31. The output will support: the pilot testing of about 130 ha of high-value agriculture in the project area; installation of about 127 cost-effective solar-powered drip irrigation systems; the construction of two olive oil extraction plants; two processing plants for fruits and vegetables; and provision of livestock (goat/sheep) to 138 women for income-generating for their livelihood. It will strengthen high-value farming technology and increase agricultural production by demonstrating technology on at least 130 ha in 160 high-value fruit and vegetable farms and by developing guidelines on the efficient use of water and agriculture inputs. It will also (i) develop community capacity for high-value agriculture, (ii) create awareness programs on safe drinking water practices and food nutrition for women and girls, and (iii) provide about 250 women and girls with training in kitchen gardening skills. The updated progress of output-2 is provided in the following Table 1-3, Table 1-4 and Table 1-5.

**Table 1-3: Progress of Installation of Solar System up to June 2024**

River Basin	Total target of farmers (No.)	Solar system installed by the Nos. of farmers Up to March. 2024	Solar system installed by the Nos. of farmers During Apr-Jun.. 2024				Total Number of Drip System Installed up to June. 2024
			Apr	May	Jun	Total	
MRB	63	60	1	2	0	3	63 (100%)
ZRB	64	43	7	7	7	21	64 (100%)
<b>Total</b>	<b>127</b>	<b>103</b>	<b>8</b>	<b>9</b>	<b>7</b>	<b>24</b>	<b>127 (100%)</b>

**Table 1-4: Progress of Provision of Livestock to 138 Women of both River Basins**

River basin	Total target of women (No.)	Total Nos. of women received ruminant up to Dec. 23 (Nos.)	Progress (%age)
MRB	69	69	100
ZRB	69	69	100
<b>Total</b>	<b>138</b>	<b>138</b>	<b>100</b>

**Table 1-5: Provision of Training**

Training Topics	No. of Trainings imparted	No. of Male participated	No. of female participated
High-value Agriculture farming	15	391	0
Operation and maintenance of solar panels, Drip irrigation & efficient use of water	8	200	0
Kitchen Gardening	4	0	100
Pre-post harvesting management agribusiness	6	100	50
Cultivation of improved/hybrid vegetable seed	2	60	0
Livestock management and production	8	0	190
<b>Total</b>	<b>43</b>	<b>751</b>	<b>340</b>

### 1.4.3 Output-3

32. Institutional capacity strengthened. This output will support the (i) provision of consulting services for detailed engineering design, construction supervision, and implementation support; (ii) provision of training for the executing and implementing agencies on project management, financial management, procurement, disbursement, gender, and social and environmental safeguards; (iii) procurement of hydro-meteorological equipment to strengthen information collection and water use monitoring; and (iv) development of infrastructure for improved project management and training.

33. For Output-3, the required procurement of social staff was completed in 2021 at PMO level to coordinate and oversee the project activities.

## 1.5 REPORTING PERIOD

34. This 8<sup>th</sup> semiannual social safeguards monitoring report is for the period of January to June 2024.

## 1.6 PROGRESS DURING THE REPORTING PERIOD

35. During the period following progress was achieved:

- i. Construction works of Siri Toi dam in un-settled area.
- ii. Payment of land compensation to the DPs.
- iii. GAP progress.
- iv. Distribution of goats/sheep to the approved female applicants of MRB and ZRB area.
- v. Installation of Solar tube wells in MRB and ZRB area.
- vi. Meetings and Consultation with approved male applicants for “Oil Extraction plants and Fruit/Vegetables Processing Plants” in MRB and ZRB area.
- vii. Revised SDDR of command area development under Siri Toi dam project.
- viii. Revised SDDR of Siri Toi dam subproject, ICB-01, ZRB.
- ix. Revised SDDRs of Kharzan-Hitachi subproject, NCB-02, MRB.
- x. Revised SDDRs of Killi Sardar Akhter subproject, NCB-06, ZRB.

## 2 MONITORING OBJECTIVES AND METHODOLOGY

### 2.1 OBJECTIVE OF THE SEMI-ANNUAL MONITORING REPORT

36. The project planning documents laid obligation of semiannual social safeguard monitoring of the project to ascertain the implementation progress through review of progress documents and monitoring of safeguard implementation activities in project execution. It includes review and verification for effective implementation of social safeguard plans and assess whether envisaged objectives of enhancing, or at least restoring the livelihoods of all DPs is achieved in real terms. Due to changes in the design, VOs are incorporated and revised SDDR/documents are prepared. indicators

### 2.2 MONITORING INDICATORS

37. During the reporting period, Specific monitoring Indicators were followed.

Monitoring aspects	Indicators for monitoring/reporting	Progress
<b>Delivery of Entitlements</b>	<ul style="list-style-type: none"> <li>Entitlements disbursed, compared with number and category of losses set out in the entitlement matrix.</li> <li>Disbursements against timelines.</li> <li>Identification of the displaced persons losing land temporarily, e.g. through soil disposal, borrow pits, contractors' camps, been included.</li> <li>Timely disbursements of the agreed transport costs, relocation costs, income substitution support, and any resettlement allowances, according to schedule.</li> <li>Provision of replacement land plots.</li> <li>Quality of new plots and issue of land titles.</li> <li>Restoration of social infrastructure and services.</li> <li>Progress on income and livelihood restoration activities being implemented as set out in the income restoration plan, for example, utilizing replacement land, commencement of production, the number of the displaced persons trained in employment with jobs, microcredit disbursed; number of income-generating activities assisted.</li> <li>Affected businesses receiving entitlements, including transfer and payments for net losses resulting from lost business.</li> </ul>	<ul style="list-style-type: none"> <li>For Siri Toi dam subproject, it is on fast track. The Social team in association with revenue staff is trying to reach out the remaining DPs.</li> <li>Timeline was tentative plan, now things are moving practically in the field.</li> <li>No such DP is found. No applicable for all other Rehab. Subprojects.</li> <li>No relocation is required.</li> <li>Only land DPs are affected.</li> <li>No shifting allowances are admissible .</li> <li>No provision of land for land.</li> <li>Not applicable.</li> <li>No social infrastructure impacted.</li> <li>No income and livelihood is impacted. Barren and unproductive land is under impact.</li> <li>Not Applicable</li> <li>Not Applicable</li> </ul>

Monitoring aspects	Indicators for monitoring/reporting	Progress
<b>Consultation and Grievances</b>	<ul style="list-style-type: none"> <li>• Consultations organized as scheduled including meetings, groups, and community activities.</li> <li>• Knowledge of entitlements by the displaced persons.</li> <li>• Use of the grievance redress mechanism by the displaced persons.</li> <li>• Information on the resolution of the grievances.</li> <li>• Information on the implementation of the social preparation phase.</li> <li>• Implementation of special measures for Indigenous Peoples.</li> </ul>	<ul style="list-style-type: none"> <li>• During the reporting period, consultations were arranged with the community regarding project objectives, community participation.</li> <li>• DPs were fully updated.</li> <li>• Except Siri Toi dam, on LAR impact was found. On Siri Toi dam, only barren and unproductive land was under impact. Since 2020, a series of meetings held which were reported in QPR and SSMR.</li> <li>• Explained whole procedure to the GRC members and the participants.</li> <li>• Social infrastructures and inclusion in design were followed'</li> <li>• No Indigenous Peoples are reported in the project area.</li> </ul>
<b>Communications and Participation</b>	<ul style="list-style-type: none"> <li>• Number of general meetings (for both men and women).</li> <li>• Percentage of women out of total participants.</li> <li>• Number of meetings exclusively with women.</li> <li>• Number of meetings exclusively with vulnerable groups.</li> <li>• Number of meetings at new sites.</li> <li>• Number of meetings between hosts and the displaced persons.</li> <li>• Level of participation in meetings (of women, men, and vulnerable groups).</li> <li>• Level of information communicated—adequate or inadequate.</li> <li>• Information disclosure.</li> </ul>	<ul style="list-style-type: none"> <li>• During the reporting period, 06 meetings with men in MRB and ZRB communities.</li> <li>• There was no new project during the reporting period, So no women meeting was arranged. However, meeting with women were arranged to ensure their participation in the training of different fields.</li> <li>• All were women for GAP.</li> <li>• There 09 DPs of Siri Toi dam subproject. The DPs contacted for vulnerable allowance.</li> <li>• Not applicable.</li> <li>• Not applicable</li> <li>• Not applicable</li> <li>• Not applicable</li> <li>• Not applicable</li> <li>• Not applicable</li> </ul>

Monitoring aspects	Indicators for monitoring/reporting	Progress
	<ul style="list-style-type: none"> <li>• Translation of information disclosure in the local languages</li> </ul>	
<b>Budget and Time Frame</b>	<ul style="list-style-type: none"> <li>• Land acquisition and resettlement staff appointed and mobilized on schedule for the field and office work.</li> <li>• Capacity building and training activities completed on schedule.</li> <li>• Achieving resettlement implementation activities against the agreed implementation plan.</li> <li>• Funds allocation for resettlement-to-resettlement agencies on time.</li> <li>• Receipt of scheduled funds by resettlement offices.</li> <li>• Funds disbursement according to the resettlement plan.</li> <li>• Social preparation phase as per schedule.</li> <li>• Land acquisition and occupation in time for implementation.</li> </ul>	<ul style="list-style-type: none"> <li>• Yes</li> <li>• Yes, provided at PMO</li> <li>• Yes, well in time in Oct.2022</li> <li>• Yes, deposited in 2021 by the PMO</li> <li>• Yes. PMO</li> <li>• Yes, after section 11, land compensation was started</li> <li>• Not yet, as works will start on canal and distys.</li> <li>• Works in progress on unsettled land. Enough space for the Contractor.</li> </ul>
<b>Livelihood and Income Restoration</b>	<ul style="list-style-type: none"> <li>• Number of displaced persons under the rehabilitation programs (women, men, and vulnerable groups).</li> <li>• Number of displaced persons who received vocational training (women, men, and vulnerable groups).</li> <li>• Types of training and number of participants in each.</li> <li>• Number and percentage of displaced persons covered under livelihood programs (women, men, and vulnerable groups).</li> <li>• Number of displaced persons who have restored their income and livelihood patterns (women, men, and vulnerable groups).</li> <li>• Number of new employment activities.</li> <li>• Extent of participation in rehabilitation programs.</li> <li>• Extent of participation in vocational training programs.</li> <li>• Degree of satisfaction with support received for livelihood programs.</li> <li>• Percentage of successful enterprises breaking even (women, men, and vulnerable groups).</li> <li>• Percentage of displaced persons who improved their income (women, men, and vulnerable groups).</li> <li>• Percentage of displaced persons who improved their standard of living (women, men, and vulnerable groups).</li> </ul>	<ul style="list-style-type: none"> <li>• Not applicable on Rehab. Projects. No DPs under project impact.</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Considerable Nos.</li> <li>• 100 % particular women</li> <li>• 100 % successful under JFPR grant components under Table 4-2.</li> <li>• Not Applicable</li> <li>• Not Applicable</li> <li>• Not Applicable</li> </ul>

Monitoring aspects	Indicators for monitoring/reporting	Progress
	<ul style="list-style-type: none"> <li>Number of displaced persons with replacement agriculture land (women, men, and vulnerable groups).</li> <li>Quantity of land owned/contracted by displaced persons (women, men and vulnerable groups).</li> <li>Number. of households with agricultural equipment.</li> <li>Number of households with livestock.</li> </ul>	<ul style="list-style-type: none"> <li>Not Applicable</li> <li>Not Applicable</li> <li>Not Applicable</li> </ul>

## 2.3 MONITORING METHODOLOGY

38. This Semi-annual social monitoring report is based on review of, i) Detail Design of the subprojects, ii) Safeguard reports (LARP/ SDDRs), iii) record on consultations with DPs including GAP and other community consultations; iv) updates on grievance redress mechanism including complaints recording and v) census of DPs and socio-economic profile of the area. The dates of final design of Subprojects are as below;

1	Construction of Ahmedzai Perennial+Flood Irrigation Subproject	NCB-08	02-10-2020
2	Construction of Killi Sardar Akhtar Irrigation Subproject	NCB-06	25-03-2021
3	Construction of Siri Toi Dam Subproject	ICB-01	18-06-2021
4	Command Area Development works of Siri Toi Dam	NCB-CAD-01	20-04-2023
5	Construction of Karkh Valley Development Subproject	NCB-01	03-10-2020
6	Construction of Kharzan Hatachi Infiltration Gallery Subproject	NCB-02	06-11-2020
7	Construction of Pashta Khan and Garambowad Perennial Irrigation Subproject	NCB-04	04-08-2021
8	Construction of Manyalo, Raiko and Rind Ali Perennial Irrigation Subproject	NCB-07	31-01-2023
9	Churri Infiltration Gallery Subproject	NCB-09	07-02-2023

### 3 LAND ACQUISITION AND RESETTLEMENT PLAN (LARP) OF SIRI TOI DAM SUBPROJECT-ZRB

39. Internal Semiannual Social Monitoring Report (SSMR) of the unsettled land under the Siri Toi Dam Subproject has been conducted by PMO on 3<sup>rd</sup> and 4<sup>th</sup> week of July 2024 and a part of QPR was validated by the PMO's External Monitoring Specialist from 7-10 of March 2024) is also visiting the site to validate the data as per policy. The remaining validation of SSMR is scheduled from 20-25 of August 2024 after final review of ADB.
40. The draft LARP of Siri toi dam subproject was updated in December 2021 after verification of record of affected land and landowners (DPs) and the compensation rates as approved by district price assessment committee (DPAC) based on consultation with landowners in December 2021.
41. The award of affected land was issued in November 2023 under Section 11 of the Land Acquisition Act 1894.
42. Construction activities on unsettled land (Govt.) have been started in December 2022 of spillway and spillway channel. A few photographs of working at site are provided below:
43. Photographs of Construction Activities of Spillway of Siri Toi dam

44. The main features of the findings are provided below:

### 3.1 SCOPE OF LAND ACQUISITION

45. For the construction of dam reservoir and its related structures, two main canals, 06 distributaries and 03 minors of various width and length, 443 hectares (1094 acres) including 33 hectares (81 acres) settled land and 410 hectares (1012 acres) unsettled land will be acquired. The government owned Rights of Way (RoW) of the proposed channels varies significantly due to hilly, terrain, rocks and topographic variation. The land falls in Tehsil and District Zhob, Balochistan.

### 3.2 IMPACT ON LAND

46. Based on the detailed design, total 1093 acres of land is being acquired for the sub-project. Out of which 727.30 acres will be acquired for the Siri Toi Dam, 135 acres will be acquired for the Right Bank Irrigation System and 230.50 will be acquired for the Left Bank Irrigation System. In total, 365.50 acres of land will be acquired for the both left and right bank irrigation systems.

### 3.3 LAND OWNERSHIP

47. Out of total 1093 acres land to be acquired, 81 acres is the settled land (privately owned) and remaining 1012 acres is the unsettled land (government owned) and considered as public land. These 81 acres fall in the left bank irrigation system.

### 3.4 IMPACT ON LAND AND AFFECTED POPULATION

48. The land being acquired (81 acres privately owned) is un-productive & barren and currently there is no economic activity on this land. Due to total 81 acres affected settled land; 113 households (approximately 450 DPs) being compensated against their land as detailed in Table 3-1.

**Table 3-1: Summary of the Affected Settled Land and DPs (Project Components)**

Sr. No	Project Component	Name of Killi	Settled Land (acres)	No. of HHs	Estimated DPs
1	Left Bank Irrigation System	Hazrat Sahib	81	113	450*
2	Right Bank Irrigation System	Nil **	0	0	0
<b>Total</b>			<b>81</b>	<b>113</b>	<b>450</b>

\*DPs may vary due to mutation of land Unsettled

\*\*land belonged to the State.

### 3.5 DISPLAY OF PANA FLEX TO DISSEMINATE LAND COMPENSATION

49. After Section -11 of land award, the land compensation to the DPs was started in January 2024. Observing the low progress of receiving land compensation from the revenue office, Zhob, it was do realized that apart from the motivation and contacting the DPs to receive their land compensation of affected land, advertisement on vast scale is required to convey the message. For this purpose, pana flexes were prepared and displayed at prominent places like DC office, Office of the revenue staff concerned of Siri Toi dam subproject, in the concerned Killi and on main road and near mosque/school. This practice proved very fruitful and the DPs approached the concerned revenue staff/office and received their land compensation.

### 3.5.1 Payment of Land Acquisition to the DPs

50. The land compensation was started in January 2024 and the status up to June 2024 is being provided in the following Table 3-2. Land compensation has been disbursed Rs. 25.12 million to 388 DPs. The payments are made through individual DP or through power of Attorney (Mukhtar-e- Khaas) as well. The list of paid DPs is provided in the Annexure-I. The sample of power of Attorney and cheque of land compensation is provided in the Annexure-II and III. The total land budget including 15% LAC is allocated Rs. 28.23 Million.

**Table 3-2: Status of Land Compensation to the DPs upto June 2024**

Total HHs	Estimated DPs (No.)	Land compensation up to June 2024		%age of land compensation		Total land to be acquired (acres)	Land acquired (acres)
		DPs	Amount in million	Total land budget (million)	%age of payment		
113	450 *	388	25.12	28.23	89	81	71 (88 %)

Note: \*Nos. of DPs may change due to mutation of land.

### 3.5.2 Vulnerable DPs.

51. The identified vulnerable DPs are provided in the following Table 3-3.

**Table 3-3: Vulnerable DPs of Siri Toi Dam Subproject**

Sr. No.	Village/ Killi	Name of DP	Father Name	Occupation	Monthly Income (Rs.)
1	Killi Hazrat Saheb	Sami ullah	Hussain Khan	Retired	15,000
2	Killi Hazrat Saheb	Amin Ullah	Ehsan Ullah	Labour	15,000
3	Killi Hazrat Saheb	Muhammad Ayub	Faiz-ul-haq	Labour	16,000
4	Killi Hazrat Saheb	Muhammad Younis	Faiz-ul-haq	Driver	16,000
5	Killi Hazrat Saheb	Mehmood-ul-Haq	Faiz-ul-haq	Disabled	Supported by relatives
6	Killi Hazrat Saheb	Naqeeb Ullah	Ehsan Ullah	Labour	18,000
7	Killi Hazrat Saheb	Gulla Khan	Jalil	Labour	16,000
8	Landi	Alyan Khan	Imdad Ullah	Labour	12000

Sr. No.	Village/ Killi	Name of DP	Father Name	Occupation	Monthly Income (Rs.)
9	Killi Hazrat Saheb	Muhammad Qasim	Ghulam Qadir	Disabled	Supported by relatives

52. The land compensation is in progress. When it seems that no DP is approaching to revenue office to receive land compensation, the process of unpaid DPs will be started that is already planned after 25<sup>th</sup> of July 2024.
53. The compensation to the vulnerable DPs is in progress at PMO.
54. The Project Consultants Resettlement Specialist contacted with the Revenue department Zhob, regarding query about the remaining land compensation of 10 acres. The revenue staff updated that the department is in the contact with the land DPs. Few DPs are out of reach and they have assured to come in the revenue office soon to receive their land compensation. After covering these DPs, if there are still unpaid DPs, they will be documented with the reason on approved ADB templates. After payment to all DPs, the land will be handed over to the department to construct left main canal and its distributaries by the Contractor.W
55. Similarly, there are 09 vulnerable DPs to provide vulnerable allowance. The PMO is managing to pay vulnerable allowance to these DPs as soon as possible.

### 3.6 OTHER FINDINGS:

- No residential settlement or amenities in ROW area.
- No public structure/fixture is under project impact.
- No indigenous peoples found in the area.

### 3.7 GRIEVANCE REDRESSAL MECHANISM (GRM):

56. Grievance Redress Mechanism has been approved for the project which constitutes 3 tiers of Grievance Redressal Committees (GRC). 1<sup>st</sup> tier Displaced Persons-GRC structured for each subproject area and each DP-GRC comprised of 4 members. 2<sup>nd</sup> tier Basin Level-GRC for each basin comprised 6 members headed by DPD of each basin. 3<sup>rd</sup> tier Project Level-GRC of 5 members is headed by PD. The GRCs will receive the complaints and facilitate the resolution of affected persons' concerns and grievances. GRM explains how the procedures are accessible to DPs of the project.

#### 3.7.1 Formation of Grievance Redress Committee (GRC)

57. With reference to the PMO letter No. PD/BWRDSP/2020/1028-1040 Quetta, the 30<sup>th</sup> December, 2020 regarding constitution of Grievances Redressal Committee at 3<sup>rd</sup> tier. The consultants and PIO staff have conducted meetings with DPs and formed GRCs.

#### 3.7.2 GRCs of MRB Area:

58. The GRC at Village-Level were formed to note and address the concerns of the locals. The names of GRC members of MRB subprojects are given in Table 3-4. The GRC notification is under process at PMO.

**Table 3-4: GRCs Formed at Village-Level in MRB Project Area**

### 3.7.3 GRCs of ZRB Project Area:

59. The Consultant's Social Team, BWRDSP conducted meetings in the field areas to form GRC at Village-Level for Ahmadzai PIS/ FIS and Killi Sardar Akhtar Subprojects of District Zhob to resolve the issues of local community fall in the subproject area. The project interventions did not impact any private land and assets (structures/fixtures etc.), so no need to form DPC. However, GRC at Village-Level was formed to safeguard locals. The names of GRC members of ZRB subprojects are given in Table 3-5. The GRC notification is under process at PMO.

**Table 3-5: GRCs Formed at Village-Level in ZRB Project Area**

### 3.7.4 Meetings Held with GRCs and Purpose of Meetings

60. During the reporting period, Most of the meetings were held against their complaints regarding objection on the design of the channels and objection on the Contractors works. Total 09 meetings were held, 02 in Kharzan-Hatachi , 02 in Killi Sardar Akhtar (02) and 02 in Siri Toi Dam, 01 in Pashta Khan, 01 in Manyalo Raiko Rind Ali, 01 in Karkh Valley Development subprojects. The purpose of these meetings is provided in the following Table 3-6.

**Table 3-6: Meetings Held with GRCs and Purpose of Meetings**

Sr.No.	Area of GRC	Meeting Dates/years	Purpose of Meetings
1	Karkh Valley Dev. Scheme, MRB	2021, 2022,2023.2024 as and when required. To settle complaints and provision of project incentives etc	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design, Social team continuously remained in contact in person to work on safety, women privacy during project implementation, through GRC members contacted farmers to install solar powered drip irrigation system, plantation of fruit trees, provision of livestock to women, provision of olive oil extraction plants, farmers and women training etc
2	Kharzan Hatachi Infiltration Gallery, MRB	2021, 2022,2023.2024 as and when required. To settle complaints and	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design,

		provision of project incentives etc	Social team continuously remained in contact in person to work on safety, women privacy during project implementation, through GRC members contacted farmers to install solar powered drip irrigation system, plantation of fruit trees, provision of livestock to women, provision of olive oil extraction plants, farmers and women training etc
3	Manyalo, Raiko and Rind Ali subproject, MRB	2021,2024	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design. address local complaints during construction period.
4	Pashta-Khan Subproject, MRB	2021, 2024	To create awareness regarding project and GRC formation, meetings for social facilities in design, address local complaints during construction period.
5	Ahmadzai Subproject ZRB	2021, 2022,2023 as and when required. To settle complaint during construction period.	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design, Social team continuously remained in contact in person to work on safety, women privacy during project implementation. Contacted women for GAP component.
6	Siri Toi Dam Subproject, ZRB	2021, 2022,2023,2024 as and when required. To settle complaints during construction period.	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design, Social team continuously remained in contact in person to work on safety, women privacy during project implementation. Contacted women for GAP component. In 2024,(Jan-June) several meetings held with the complainants of killi Hazrat Saheb. Also contacted for land compensation.
7	Killi Sardar Akhtar Subproject. ZRB	2022,2023, 2024 as and when required. To settle complaint during construction period.	Multi-purpose: To create awareness regarding project and GRC formation, meetings for social facilities in design, Social team continuously remained in contact in person to work on safety, women privacy during project implementation. Contacted women for GAP component. Complaint received and was resolved.

**4 PREPARATION OF SOCIAL DUE DILIGENCE REPORTS (SDDRS)****4.1 PREPARED SDDRS OF IRRIGATION SUBPROJECTS**

61. In Zhob area (ZRB) and Khuzdar area (MRB), 08 SDDRs have been prepared up to December 2023. All these SDDRs are approved with in due course of time.

**4.2 PREPARED 05 SDDRS UNDER JAPAN FUNDS FOR POVERTY REDUCTION (JFPR)**

62. In both river basins of MRB and ZRB, i) prepared 07 SDDRs were prepared, submitted and got approved from the ADB up to December 2024. Most of these components are being implemented and even few have been completed.

**4.3 SDDRS FOR SOLAR POWERED DRIP IRRIGATION SYSTEM FOR MRB & ZRB AREA AND PROGRESS.**

63. The due diligence of installation of solar powered drip irrigation system of the subproject, MRB was conducted. The installation of solar powered drip irrigation systems includes 120 pilot sites under Japan Fund for Poverty Reduction (JFPR) grant for high value agriculture in the project area. Out of the total 160 sites 80 fall in Mula River Basin District Khuzdar and 80 in Zhob area. The target have been achieved 100%.

64. The progress during the reporting period upto June 2024 is being provided in the following Table 4-1.

**Table 4-1: Progress During the Reporting Period upto June 2024**

River Basin	Total target of farmers (No.)	Solar system installed by the Nos. of farmers Up to March. 2024	Solar system installed by the Nos. of farmers During Apr-Jun.. 2024				Total Number of Drip System Installed up to June. 2024
			Apr	May	Jun	Total	
MRB	63	60	1	2	0	3	63 (100%)
ZRB	64	43	7	7	7	21	64 (100%)
<b>Total</b>	<b>127</b>	<b>103</b>	<b>8</b>	<b>9</b>	<b>7</b>	<b>24</b>	<b>127 (100%)</b>

**4.4 IMPLEMENTATION OF GENDER ACTION PLAN (GAP)**

65. On this Project, the GAP carries much importance as Output 1 & 2, there are number of targets to be achieved during the project period. To achieve these targets, there are line departments like Agriculture/Horticulture, Forest, OFWM and Livestock.

66. The Consultants with the close coordination and support of PIO, worked in the both river basins and conducted 30 consultation meetings with males and females of 08 subprojects fall in Mula River Basin (MRB) Khuzdar and Zhob River Basin (ZRB) Zhob. Worked on inout-1 & 2 and achieved markable targets which are provided in the Annexure-3 of GAP.

67. The updated progress during the reporting period is being provided below in the Table 4-2.

**Table 4-2: Updated Progress of Gender Action Plan (GAP)**

Training Topics	No. of Trainings imparted	No. of Male participated	No. of female participated
High-value Agriculture farming	15	391	0
Operation and maintenance of solar panels, Drip irrigation & efficient use of water	8	200	0
Kitchen Gardening	4	0	100
Pre-post harvesting management agribusiness	6	100	50
Cultivation of improved/hybrid vegetable seed	2	60	0
Livestock management and production	8	0	190
Total	43	751	340

#### 4.5 MEETINGS WITH MALE COMMUNITIES

68. The Social team contacted male communities of Siri Toi subproject during the reporting quarter. Consultations were held with the participants of three killies. Project interventions were discussed in details and questions/concerns were raised from the participants. Also conducted meetings to resolve their local issues regarding project impacts.

## 5 PREPARATION OF SDDRs OF “LIVELIHOOD AND INCOME GENERATION THROUGH DISTRIBUTION OF GOATS/SHEEP” FOR WOMEN IN MRB AND ZRB SUBPROJECT AREA

### 5.1 OBJECTIVES OF THE PROJECT

69. The overall objective of the BWRDSP is to support the government in water sector planning, management and investment on water sector infrastructure in selected river basins. The main objectives of the subproject are:

- Employment Generation and Mutton & Wool Production.
- Food Security; and
- Poverty Reduction.

### 5.2 SCOPE OF SERVICES

70. The people of the area were pleased to know about the proposed grant. “Livelihood & Income Generation of Females of Kamori goats” for Mula River Basin” under the Balochistan Water Resources Development Sector Project (BWRDSP)”, will be much beneficial for the local poorer and vulnerable females to boost their economic condition due to project support. They were of the view that after the project support, their income will be increased resultantly, poverty will be reduced. The photographs of few meetings are provided in the Annexure I. The important general objectives of the consultation process were:

71. According to planned program and project target as per selection criteria and grant, 69 females were to be selected in Mula river basin project area. Due to exhaustive efforts to create awareness and motivation. 69 applicants from each river basin were selected and over the period of time, goat/sheep had been provided to all approved and deserving women. 100 % progress has been achieved shown in the following Table 5-1 and Table 5-2 While its regular progress had been reported in the QPR and Semi-annual reports.

**Table 5-1: Progress of Provision of Goats/Sheep**

River basin	Total target of women (No.)	Total Nos. of women received ruminant up to Dec. 23 (Nos.)	Progress (%)
MRB	69	69	100
ZRB	69	69	100
<b>Total</b>	<b>138</b>	<b>138</b>	<b>100</b>

**Table 5-2: Provision of Solar dryer and Multi-purpose Machines to Women**

River Basin	Nos. of Approved Fruit / Vegetables Plants	Nos. of Approved Solar Tunnel Dryer Units
MRB	10	3
ZRB	10	3
Total	20	6

### 5.3 FOLLOW UP ACTIVITIES

72. During the reporting period, team visited Tora Dargah and Bob-e-Erabzai. Meeting was held with the community members of small ruminant and high value agriculture. All the

sheep were healthy and growing well. The livestock was vaccinated and feed was provided by the organization. 13 sheep and goats have given birth to 48 lambs and kid goats. Women were very happy because of increase in incomes. Moreover, grass/wild fodder is abundant in the natural pastures. The Nos. of visited beneficiaries are provided in the Table 5-3 while the lists are provided in Table 5-4, Table 5-5 and Table 5-6.

**Table 5-3: Follow up Visit of the MRB and ZRB area**

Area	Farmers who installed Solar Tube wells (Nos.)	Women who received goats/sheep (Nos.)
MRB	10	20
ZRB	12	19

**Table 5-4: List of Visited Male Beneficiaries of Zhob Area**

73. Few photographs of the field showing their livestock.
74. Photographs of Field Visits by the EMA

#### 5.4 PREPARATION OF SDDR OF “OLIVE OIL EXTRACTION PLANTS AND FRUIT/VEGETABLES PROCESSING PLANTS” FOR MRB AND ZRB AREA

75. The scope of the subproject includes installation of oil extraction and fruit/vegetables processing plants two persons from each river basin (MRB and ZRB) in the selected area under JFPR grant. The provision of these plants to the deserving and selected

farmers/ locals as per approved criteria, 2 persons from each river basin were finalized by the PIO. The selection criteria of applicants was followed and SDDR was prepared in June 2023 and submitted to the Client and ADB. The civil works have been completed up to 70% for installation of 2 olive oil extraction plants and 2 processing plants for fruits and vegetables

River Basin	Type of Plant	Nos.	Name
Mula River Basin	Oil Extraction Plant	1	M. Akhter Mangal
	Fruit/Vegetables Processing Plant	1	Abdul Malik
Zhub River Basin	Oil Extraction Plant	1	Haji Fazal Qadir
	Fruit/Vegetables Processing Plant	1	Muhammad Adnan

## 5.5 CONSTRUCTION OF SOCIAL STRUCTURES

76. During the field visits, meetings and consultation with the local communities, their demands of washing points/access to water for domestic use, wazu (ablution) place and cattle ghats etc. were recorded and were included in the design. The following facilities shown in Table 5-7 were provided at different locations up to June 2024. Most of the social structures included access to water/ washing points and wazu point near by the settlements.

**Table 5-7: Provision of Social Structures/Facilities (Nos.) up to June 2024**

Sr. No.	Subproject	Access to water / washing points		Cattle ghat		Wazu point

## 5.6 COMMAND AREA DEVELOPMENT UNDER SIRI TOI DAM PROJECT, ZHOB

### 5.6.1 Objectives

77. About 10000 acres of land of Sambaza sub-tehsil, district Zhob is to be irrigated which is at present lying barren, un-levelled and hilly. As per revenue record, about 3975 acres (40 %) of the land is private owned while 6025 acres (60 %) of un-settled land belonged to government owned. The project aims to develop the area for agriculture for poverty reduction and socio-economic uplift of the local communities. The map of CAD area is provided below as Figure 5-1.

## 5.10 SOCIAL CATEGORIZATION OF COMMAND AREA DEVELOPMENT PROJECT-ZHOB

81. After the social screening, following categorization of the sub-project Command Area Development project under Siri Toi dam subproject-ZRB is recommended (5-8). The project interventions will not involve any land acquisition or demolition of any built-up private properties. The Command Area Development Project, under Siri Toi dam Subproject-Zhob can be classified as "Category C" both for Involuntary Resettlement (IR) and Indigenous Peoples (IPs). The ADB IR and IP check lists are attached in **Annexure III and IV**.

**Table 5-8: Social Categorization of Command Area Development project under Siri Toi dam Subproject**

Sr. No.	Name of Sub-project	Social Categorization	
		Involuntary Resettlement	Indigenous Peoples
1	Command Area Development Project, under Siri Toi dam Subproject-Zhob.	Category "C"	Category "C"

## 5.11 SCOPE OF WORK

82. As per outline for Command Area Development Report suggested by the ADB, the following tasks, but not limited were to be covered for feasibility study.

- A. Existing social set up in the command area
- B. Current land ownership distribution in the command area. Detailed lists of owners' names, area (ac) in order and sequence from head to tail shown on GIS map.
- C. Existing Water distribution system among tribes and intra-tribe in the area and available records.
- D. Training Need Assessment for New Irrigation System
- E. Beneficiaries of the Project
- F. Un-settled Land to be used through:
  - a) lease out system!!
  - b) to whom and by Whom?
  - c) other option

## 5.12 METHODOLOGY AND APPROACH

83. To achieve the above cited tasks, mention in section 3, a well-defined and comprehensive plan was prepared to cover these tasks. The map of command area

was prepared showing right bank canal and left bank canal with the distribution system. Further, the command area to be developed through these both main canals has been shown in the map. To survey the area, services of the concerned revenue staff deployed by the DC Zhob were expanded. The revenue staff comprised Naib Tehsildar, Qanoongo and patwari. The project survey and social teams were also accompanied the revenue staff and visited whole command area to be developed. The team marked each Khasra and acre number on the Ux Shajra, field note book and also on the map at the spot to avoid any error and missing. The data was digitized and super imposed on the map of command area showing private land and un-settled land. The Soil categorization is also shown khasra wise/plot wise to determine the land suitability for the proposed cropping pattern.

84. On the parallel of these activities, the social team conducted consultations with the communities of the killies fall in the command area to cover the tasks mentioned under section 3.

### 5.12.1 Existing Households, population and crop sown in the project area

85. The team collected the required data and information from the communities residing in the project area. The data provided in the Table 5-9 below while the meetings photographs and list of participants are provided in **Annexure-I**.

**Table 5-9: Killi wise Data of Households, Population, Crops and Orchard**

Sr. No.	Killi Name	Total HH	Population	Main Crops	Orchards	Source of Irrigation
1	Ahmad Khel (Hazrat Sahib, Landi and Olang Tora Dargah)	900	5400	Maize and jawar as fodder	-	Rain
2	Bob-Erabzai/ Gadai Khel	2000	12000	*Wheat, Millet, Maize (corn) Sunflower and all Vegetables	*Olive, Almonds, Pomegranate, Peach, Apricot, Fig, Apple and Pistachio	Spring system/perennial irrigation system

86. The data regarding killi wise land distribution and tribes exist in the project area is being provided in Table 5-10.

**Table 5-10: Detailed Lists of Owners Names, Area (Ac) in Order and Sequence from Head To Tail Shown on GIS Maps**

Sr. No.	Killi Name	Type of Land	Acres	Main Tribe	Name of sub-tribes, who own the land of command area.	Nos. of land owners
1	Ahmad khel/Hazrat Sahib Including Land and Olang Tora Dargah	Settled land	3798	Mandokhel	Ahmad Khel, Mala Khel, Karezai, Payenda Khel, Shadi Kahol, Kamal Kahol, Gandher Kahol, Mala Yahya Kahol, Mehmood Kahol, Zala Khan Kahol, Khani Kahol, Babakar Khel Kahol, Manjoo Kahol	1500

Sr. No.	Killia Name	Type of Land	Acres	Main Tribe	Name of sub-tribes, who own the land of command area.	Nos. of land owners
	Erabzai/Gadai Khel	Settled land	177	Mandokhel	Mandokhel, Dawood Khel, Erabzai, Saido Khel, Gadai Khel, Ahmad Khel Erabzai, Jalal Khel, Kakazai, Manak Khel, Shah Lezai, Shahozai, Shahozai, Mir Ali Khel, Bai Khel.	265
2	Tribes of both killi	Un-settled land	6025	Mandokhel	All above tribes/sub tribes have customary rights to use the land.	-
	<b>Total</b>		<b>10000</b>			<b>1765</b>

### 5.12.2 Beneficiaries of the Project

87. The existing policy and tradition of Balochistan allow the present occupants/tribe or owner to use unsettled land after reclamation for agriculture. In the Zhob district, there are examples of the same situation that after dam construction and command area development, the indigenous tribes have rights to own and use the land free of cost. The dam water is being used without any water charges.
88. The matter was discussed with the revenue department of Zhob. The unsettled land of CAD area is under the control of Ahmad khel karezai and Bob-Erabzai of Mando Khel tribe. They will cultivate the un-settled land. Ultimately, they are the beneficiaries of the project.

### 5.12.3 Un-settled Land to be used through:

- i. lease out system!!
  - ii. to whom and by whom?
  - iii. other option
89. As per policy, the un-settled land is marked with the number and name of tribe on the Ux-Shajra owning the land. After completion the project, the un-settled land will be divided within the same tribes having their respective shares according to their internal arrangements. In case of expanding number of sub-tribes, the revenue department with the consultation of main tribes, the unsettled land is further divided to avoid any dispute. There will be no fee or tax to pay.

### 5.12.4 Consultation, Grievances and Suggestions Heard

90. The team consulted with the locals on the proposed CAD component to record their concerns to respond and suggestions to add in the program. The following were the questions and replies during the consultation.

Question Raised	Response by the Team
What is the CAD component?	The proposed components were explained in the meeting in detail one by one with specifications.
What is main objective?	To irrigate your lands on a systematic plan.
Will the water only for settled lands?	No, the dam water will be for all land included in CAD boundary.

Question Raised	Response by the Team
How much water for each farming household?	The available water will be distributed on the area and minutes per acre will be provided.
Will water charges be charged from the water users?	May be. It will be decided soon. However, they are agreed to pay with minimum rate per hour in the start. When the land will give them benefit, the rate may be increase with the consultation. They informed that at present, no water abiana is being charged from the farmers at different places in the Zhob area.
Is there any plan of training to use the water(method)?	Yes. There is a plan to provide training to the farmers of CAD area regarding irrigation methods.
Will any department be guided to grow the crop and orchards?	Yes. Soil samples are collected from the area to categorize the crop and orchards to be recommended.
When this program will be started?	It has been started.
Is there any fund/plan for improvement mosque or madrassa?	No.
Due to heavy machinery being used for dam construction, road is being damaged. Is there any plan to restore/maintain it?	Road from killi Hazrat sahib to Outlet structure(dam) will be upgraded.
Any chance of jobs in this project?	The Irrigation department will prepare a plan for it.
Will the Govt. arrange seed, fertilizer and spray at local level for the farmers?	For this purpose, the local businessmen will establish their shops to provided these inputs.
Will there be facility to get loan for agriculture purpose?	Yes, Govt, already provides seasonal loan for agriculture to the small farmers. You also deserve for financial support to convert barren land into agriculture land.

91. The participants shared some grievances mentioned below:

- i. **Question:** During the construction activities, movement of heavy vehicles and machineries crossing nearby the residential area, their concern over social mobility of the women. They demanded a check and balance to control unwanted activities.  
**Reply:** The women mobility will be ensured strictly. The movement of the outsiders will be watched.
- ii. **Question:** Cattle distribution, Solar system or any GAP supported activities as these incentives are being provided in other area of Zhob and Khuzdar districts. They requested to reconsider them if possible.  
**Reply:** Through Japan fund, the said incentive was provided in the selected area to generate income for the livelihood. But in your area, a huge fund is being spent for the development of new irrigation system to bring barren lands into agriculture land to reduce poverty.
- iii. **Question:** Due to heavy loaded vehicles and machineries of the Contractor, the existing road is being damaged, that required urgent repair.  
**Reply:** For this reason, a complaint is submitted to the Project Director BWRDSP and the ADB, which is under consideration to resolve.

iv. **Question:** The people of Killi Erabzai are the main land owners of CAD area but they are not getting land compensation amount as most of their land under canal construction is unsettled.

**Reply:** As per law, policy and ADB IR Policy, land compensation is provided only to the titled holders.

### 5.13 PREPARATION OF REVISED SDDRs DUE TO VARIATION ORDERS (VOs)

92. Based on community demand for the project's benefits and technical reasons, changes in design were proposed at various locations of the subprojects and submitted to the ADB for approval. Subproject wise VOs are provided due to which SDDRs were revised and submitted shown in the following Table 5-11.

**Table 5-11: Subproject wise Variation Orders (VOs)**

S.No.	Subproject Name	Type of VOs	Action
1	ICB-01 Siri Toi Dam Subproject, Zhob	<ol style="list-style-type: none"> <li>1) Change in design of D/S slope of main dam embankment</li> <li>2) Change in design of slope protection of main dam and Dyke</li> <li>3) Change in design of spillway structure and provision of plum</li> <li>4) Change in design of access road from shingle gravel to metalled road and provision of additional link road to outlet structure and rehabilitation of existing killi Hazrat Sahib road and surfacing of road along LBC service road.</li> </ol>	Revised SDDR was prepared and submitted on 14-6-2024 and approved by the ADB.
2	NCB-01, Karkh Valley Irrigation Subproject, MRB. Khuzdar.	<ol style="list-style-type: none"> <li>1) Additional scope of works of Rehabilitation of Chutta Weir Section (Centre Portion).</li> <li>2) Sinjori Channel Proposed Stone Masonry Conduit (From 0+000 to 0+231 of Existing Sinjori Channel).</li> <li>3) Proposed Top Slab of Acherwend Channel (from 0+000 to 0+300)</li> <li>4) Extension of Existing Culvert under Flood Protection Bund No.01 at RD 0+850.</li> <li>5) Proposed Culvert under Flood Protection Bund No.4 at RD 0+200.</li> </ol>	Revised SDDR was prepared and submitted on 24-5-2024 and approved by the ADB.
3	NCB-02, Kharzan-Hitachi Irrigation Subproject, MRB. Khuzdar.	<ol style="list-style-type: none"> <li>1) Construction of additional scope of works of Raibak culvert, Kharzan intake structures and HDPE-100 pipe PN-8.</li> </ol>	Revised SDDR was prepared and submitted on 12-6-2024 and approved by the ADB.
4	NCB-06, Killi Sardar Akhtar Irrigation Subproject, Zhob	<p>Additional Structures (Pipe Culverts and Super Passages)</p> <ol style="list-style-type: none"> <li>1) <b>Pipe culverts:</b> <ul style="list-style-type: none"> <li>- Main channel RDs 1+630, 1+870, 2+145, 2+280, 2+330, 2+460, 2+530, 3+515, 4+830</li> <li>- Ghundai Channel at RD 1+00</li> </ul> </li> </ol>	Revised SDDR was prepared and submitted on 24-5-2024 and approved by the ADB.

S.No.	Subproject Name	Type of VO's	Action
		<p>2) <b>Super Passage</b></p> <ul style="list-style-type: none"> <li>- Main Channel 1+740, 2+00, 3+00</li> <li>- - Renovation of Existing Staff Building</li> </ul>	

## 6 INSTITUTIONAL ARRANGEMENTS

93. The PMO-Irrigation Department is the responsible for the implementation of all subprojects including LARP of Siri Toi Dam Sub-project.

94. The coordination involved for various institutions for the implementation of LARP include BID (Executing Agency), and other line departments, such as Revenue, Forest, Agriculture, On-farm Water Management and Livestock. The set up of the BWRDSP is approved as follows:

### 6.1 BALOCHISTAN IRRIGATION DEPARTMENT (BID)

95. A project management / project implementation unit (PMO/PIO) have been established in BID to oversee general project execution. Within the PIO, Social and Environment Safeguards Unit (SESU) have been created to manage all LAR related activities involved under the implementation of the subproject. In addition, BID and PMO will be supported through Project Design and Supervision Consultants for the project during LARP preparation, implementation and monitoring.

### 6.2 SOCIAL AND ENVIRONMENTAL SAFEGUARDS UNIT (SESU)

96. The SESU will be overall responsible for LAR management during design and implementation of the project. It will look after all LAR activities according to provisions outlined under this LARP. Main functions of the SESU will include but not limited to: preparation, implementation and monitoring of LARP; Coordination with GRC and killi level DPCs; regular field visits and consultations with DPs and disclosure of LAR related information; track and monitor progress on LARP implementation and preparation of biannual social internal monitoring reports. SESU will have the safeguards related technical support from the project supervision consultants. The social safeguard management staff in SESU will include a Deputy Director Resettlement and a Deputy Director Social and Gender.

97. Specific tasks that SESU will perform are outlined below:

- Maintain oversight and quality control over all aspects of LARP preparation and implementation;
- Accompany the LARP preparation consultants during their field visits and consultations with DPs. This is to ensure consistency of approach and message to DPs, to avoid variation in information obtained and given, and to address issues immediately as they arise on site;
- Ensure that the LARP preparation consultants must include all the DPs along with the details of their property held e.g., land, structures, trees, crops, shops, etc. Preparation of LARP shall be strictly by the LARF mutually prepared by PIO of BID and ADB;
- Coordinate land acquisition process and resettlement planning activities for the Project and facilitate information dissemination and consultation with DPs on all matters affecting DPs to ensure compliance with the requirements of the LARF, ADB's Social Safeguard Policies and Land Acquisition Act 1894. This will include

- coordination with District offices (Revenue Department, Forest Department, Agriculture Department, LARP preparation consultants and DPs as they relate to the Project;
- Ensure that land acquisition activity after publication of Section 4 is followed by updating land records and land price assessment reflective of current market rates. In coordination with the provincial governments, PIO participate in meetings of Land Price Assessment Committees and ensure that “replacement costs” are recommended for compensation;
  - Ensure timely disclosure to all DPs of project design alignment, land acquisition notifications issued by the LAC under the LAA in accessible places and in a format and language easily understood by DPs, and facilitate meaningful consultation with all DPs on the information disclosed by the LAC/Revenue Department;
  - Publish details of the designated office from where all information regarding alignment, design, road maps, revenue maps of land, information on price assessment and unit rates about assets lost can be acquired, with name of the focal person to contact;
  - Internally review the LARP, coordinate with ADB in review and approval of LARP, and ensure timely disclosure of approved LARP on BID Website and translation of Summary LARP in local language for disclosure to DPs;
  - Review the LARP submitted by the consultants to ensure that these are in compliance to the LARF before submission to ADB;
  - Coordinate with ADB on review and approval processes and respond to the comments/queries and provide clarifications in a responsive manner for early and timely approval of LARP ; and
  - Ensure the disclosure of approved LARP on BID website and translation of summary LARP in local language for its disclosure to DPs.
98. For smooth and timely implementation of LARP and monitor day to day LARP implementation progress and consolidate Social/LARP Monitoring reports some specific tasks that SESU will perform the following:
- Verify data on DPs. Prepare, issue and distribute identity cards for each non-titleholder DPs category;
  - Translate summary approved LARP in local language with all necessary information for DPs and ensure it disclosure through formal and informal manner in close coordination of revenue, and other in line departments; and document this process to avoid and reply to future complaints in this respect;
  - Ensure that all field visits and consultations with the DPs are properly documented, photographed and recorded on video; such record shall be placed in the Project office.
  - Facilitate and support the LAC and Project Director throughout compensation disbursement process by extending its support in office and field during preparation of claims and issuance of compensation vouchers and cheques, This includes coordination with DPs, PIO and district land revenue authorities involved in disbursement of compensation;
  - Mobilize and facilitate the DPs to process their compensation claims and receive compensation;
  - Support Project office /PD /PIO to establish multi-tiered grievance redress mechanism at village level, subproject level, project level and support the PIO and DPs in recording, processing/investigation and disposal of complaints;
  - Develop database management system to be used for internal and external monitoring of the LARP implementation and evaluation of degree of achievement of the objective set forth in LARP;

- Provide assistance and access to database and coordinate with External/Independent monitor to facilitate him to monitor and evaluate the project;
- Publish details of the designated office from where all information regarding alignment, design, project maps, revenue maps of land to be acquired, price assessment and information regarding complaints status / redress can be obtained by the DPs, with name of the focal person to contact. Mobile phone numbers of all personnel of this unit must be mentioned for the convenience of DPs.

99. In addition to the implementation of LAR activities above, the SESU at PMO/PIO will monitor day-to-day progress on LAR implementation activities and ensure smooth and timely implementation of LARP and execution of sub-project works in a manner consistent with the LARP and LARF provisions. The PIO will share LARP implementation status through monthly project progress reports, while separate LARP and social monitoring reports (internal) will be prepared and shared with ADB biannually or following reporting frequency (depending on the scale and sensitivity/complexity of the project impacts) agreed in ADB cleared LARP for each sub-project. Besides, the SESU assisted by the safeguards staff mobilized by the DSCS/PIC will report to ADB on any unforeseen impact and will prepare and implement corrective action plan or addendum to sub-project LARP under ADB's guidance to ensure project implementation is fully consistent with the ADB's safeguards requirements. Any corrective action plan or addendum to LARP prepared and cleared by ADB shall be disclosed.

### 6.3 EXTERNAL MONITORING AGENT (EMA)

100. BID will engage a qualified individual/firm as external monitor to review and assess the LARP implementation. The main objective of the EM process is to provide a third-party independent review of LARP implementation and provide necessary recommendations. The External Monitor shall prepare and share biannual social monitoring reports with BID and the ADB for review and acceptance. All ADB cleared biannual social monitoring reports will be disclosed on ADB and BID's websites and monitoring results will be shared with the DPs and local communities.

### 6.4 PROJECT DESIGN AND SUPERVISION CONSULTANTS/ PROJECT IMPLEMENTATION CONSULTANT

101. The PIO-BWRDP will be assisted by the Project Design and Supervision Consultants/Project Implementation Consultant who will be responsible for preparing/reviewing the detail design of the subprojects and will assist the PMU/PIU during preparation, updating, implementation and monitoring of the LARP. The PDSC/PIC will hire the services of the following qualified and experienced staff to augment capacity of the SESU staff in delivery of the LAR tasks and will provide on job assistance and coaching to the EAs staff for their better understanding on the safeguards requirements and management. The PDSC/PIC safeguards staff (1 resettlement specialist, 1 gender specialist and 2 junior sociologists) will be on full time basis and will closely coordinate with the SESU staff to assist them in delivering the LAR management tasks.

### 6.5 LOCAL/ DISTRICT GOVERNMENT

102. The Zhob district officer revenue/deputy commissioner is the land acquisition collector at district level while his assistants/deputies are the LAC for the Tehsils are appointed to. All land acquisition affairs, including publication of notifications under LAA provisions, identification and assessment of land, determination and delivery of

compensation for land acquired under law rest with the LAC. To deliver its functions the LAC has number of other supporting officials, most notably the Patwaries, (the land records keeper) who retains the land management record and carry out specific roles in land acquisition process that include measurement of land and preparation of land maps and record identification, verification and updating of land titles, and issuance of land title documents to be used at the time of processing of compensation claims etc. So, keeping in view the role of local land administration authorities, they will be engaged and coordinated throughout project implementation to ensure the project ROW lands are made available adequately and timely.

103. Besides, land administration authority discussed above, other line department of local/district government that will play a vital role in LAR planning include, Buildings and Roads department, Agriculture Department and Forest Department. The assessment of affected asset different from land, i.e., structures, crops, and trees fall under preview of these departments, so during LARP planning these local government departments will be closely coordinated to get the updated assessment rates to ensure the compensation of acquired assets is fully reflective to replacement cost.

## 6.6 ADB

104. ADB will review all LARP and confirm their responsiveness to ADB's safeguards requirements. In cases where these do not meet ADB's requirements, ADB can advise for additional assessment and improvement of the LARP to comply ADB's safeguards requirements. ADB will also conduct periodic social safeguards reviews, to verify that LAR planning and implementation is being carried out as agreed in this LARF and the subproject LARP.

## 6.7 COORDINATION INITIATIVES

105. The land acquisition for public interest projects is responsibility of the provincial government through the Provincial Board of Revenue and its subordinate land administration offices at district level, i.e. the District Land Revenue offices assisted by the other line departments of local Government. With the effective coordination of departments/ agencies involved in land acquisition under LAA provisions, the assessment of LAR impacts and compensation can be completed smoothly and eligible and entitled DPs can be paid timely. By making timely payment to the DPs, a smooth and timely project implementation could be ensured. The guidance and support by provincial government including, BOR and its subordinate offices at district level, provincial communication and works department, agriculture and cooperative department will be critical to implement the project and may require coordination at management level and working level. For improved coordination among the government departments involved in land acquisition process the government will constitute LAR coordination committee at district/river basin level. A LAR coordination committee at the district level will be constituted for the project.

## 6.8 LAR COORDINATION COMMITTEE

106. At PMO level a Land Acquisition and Resettlement Coordination Committee will be constituted consisting of Director/Deputy Director Social SESU, Additional Deputy Commissioner/LAC for respective district, representative (not below the level of deputy district officer) of Irrigation, Agriculture, Forest and C&W departments with resettlement specialist (mobilized through PIC) as secretary to the LARCC. The LARC will support and guide the PIU team in i) assessment of LAR impacts, census and socio-economic surveys, ii) review the on-going market rates of land and assist PIU/LAC in determining the replacement cost for land and land-based assets. The LAR Coordination

Committee will meet regularly to review the progress on assessment of impacts, valuation of assets on replacement cost basis and acquisition of land and resolution of grievances on impact assessment and determination of compensation during LARP planning and preparation stages. Such review meetings will be conducted on monthly basis, however, if required the LARCC can call additional issue specific meetings to ensure proper and timely implementation of the subprojects.

## 7 GRIEVANCE REDRESS MECHANISM (GRM) AND GRCs FORMATION

107. The Balochistan Water Resources Development Project (BWRDP) aims to support the Government in water sector planning, management and investment on water sector infrastructure in selected river basins. It will assist the government for investment to improve water storage and supply infrastructure at the Zhob and Mula River basins and improve agricultural farm productivity.
108. Under Notification from the office of Project Director, letter No. PD/BWRDSP/2020/1015-1027, dated 30<sup>th</sup> of December 2020 Quetta, Balochistan. The objectives, principals and formation of GRC and its members were well defined for effective functional.

### 7.1 GRIEVANCE REDRESS MECHANISM (GRM)

109. The Grievance Redress Mechanism (GRM), outlines the policy and procedure for documenting, addressing, responding and employing methods to resolve project grievances (and complaints) that may be raised by the displaced persons (DPs) if any, then Displaced Person Committee (DPC) will also be formed. The document describes the scope and procedural steps and specifies roles and responsibilities of the parties involved. The purpose of the GRM is to receive, review and resolve grievances from DPs and ensure smooth and fair implementation of subproject activities.
110. Structure & Procedure of Grievance Redress Mechanism
111. The project shall have multi-tier GRM with designated staff responsibilities at each level. The brief of these levels is described as below:

### 7.2 GRIEVANCES REDRESSAL COMMITTEE (GRC) AT KILLI LEVEL

112. For effective coordination in the field with the locals or community, GRC have been established at the killi level to maintain a close rapport with the affected persons and local community throughout project implementation. The GRC of 1<sup>st</sup> tier will comprise of the following members;
- Social/Community Organizer (male/female) of BWRDSP Consultants
  - A female member from the community / Killi as Member.
  - Two male members from the community / Killi as Member.
  - Environment Specialist of BWRDSP Consultants as Member.

### 7.3 DISTRICT/ PROJECT MANAGEMENT OFFICE (PMO) LEVEL

113. Baluchistan Irrigation Department (BID) shall constitute a Grievance Redress Committee (GRC) headed by Deputy Project Director (DPD) at District/PMO/PIO level for each river basin i.e. Zhob & Mula to resolve all grievances and complaints of the locals and the complainants. The GRC of 2<sup>nd</sup> tier shall comprise the following members:
- Deputy Project Director, PMO / PIO Head/Convener.
  - Additional Deputy Commissioner (Revenue) as Member.
  - Resettlement Specialist of BWRDSP Consultants as Member.
  - Environment Specialist of BWRDSP Consultants as Member.
  - Any notable personality from the community as Member.

## 7.4 BID/ PROJECT LEVEL

114. In compliance with the Grievance Redressal Mechanism of Balochistan Water Resources Development Sector Project, the 3rd tier or Project Level-Grievance Redressal Committee (GRC) is constituted having following composition:

- Project Director / Chief Engineer Head / Convener
- Representative of the Revenue Department as Member.
- Representative of the Law Department as Member.
- Representative of the Environment Department as Member.
- Social Development & Gender Specialist, BWRDSP Consultant as Member.

## 7.5 SOCIAL SAFEGUARD COMPLIANCE

115. The construction activities are on Ahmadzai subproject has been completed while construction of Karkh Valley Development subproject and Kharzan-Hatachi Subproject in progress. Meanwhile, the Contractor have established the site camp for Killi Sardar Akhter Subproject to start construction activities. The complaint registers were provided to the GRC members including women members to register complaint during construction time. The survey report is being provided in the following Table 7-1.

**Table 7-1: Survey Report of Social Compliance**

Sr.No	Name of Subproject	Construction Status	Compliances/Remarks
1	Siri Toi Dam Subproject ICB-01, ZRB	In progress on Un-settled (State) land.	PMO responded the complainant. Documented in the revised SDDR of ICB-01 approved by the ADB
2	Ahmadzai Subproject, ZRB	Completed	No complaint from the locals.
3	Karkh Valley Dev, Subproject, MRB	In progress	No complaint from the locals.
4	Kharzan-Hatachi subproject, MRB	In progress	PMO responded the complainant. Documented in the revised SDDR of NCB-02 approved by the ADB
5	Killi Sardar Akhter, ZRB	In progress	Complaint from the locals and resolved at local level. Documented in the revised SDDR of NCB-06 approved by the ADB.

## 7.6 MONITORING AND EVALUATION

- Establish a proper mechanism system for monitoring the progress of participants.
- Collect feedback to assess the impact of the program on women-managed households.

## 7.7 COMPLAINTS RECEIVED SO FAR AND RESOLUTION

### i) Kharzan-Hitachi Subproject.NCB-02, MRB Khuzdar

S.No.	Type of Issue with Location	Meeting held with Date	Outcome/Remarks
1	Hatachi community stopped the work and not willing to provide the land to construct the	In Hitachi village and at site. Consultation with community was initiated in several phases and the issue has been resolved.	The issues were resolved and the Contractor wrote a letter to the PMO. Ref No ABCC/KHI/887 dated 4 <sup>th</sup> March-2024 (Annex-VIII) that "issues are resolved, site is clear and hand

S.No.	Type of Issue with Location	Meeting held with Date	Outcome/Remarks
	channel. At DL4 <sup>1</sup> from RD 0+431 to 0+750	March 1, 2. 2024. May 23 & 24. 2024.	over to him and the work is started". While meeting photographs No.01 are provided in the Annexure-XI.
2	The upstream village was not willing to cross the channel from their area to next village. At RD 7+600 to 8+080.	Meeting place: Hitachi main channel. village Churak (Masti Khan vs Juma Khan) on March1 & 2-2024.	The complainants were briefed about the loss of delay of the project based on their minor disputes etc. There is need of cooperation to complete the project successfully and well in time. They agreed. The issue was resolve. Photo No. 02 of Annexure XI.
3	Issue created by Mr. Akbar and brothers on DL3 of Mouza Zameen, Hatachi.	Meeting in Hitachi village. Detailed discussion with them on March 2,2024.	The issue based on misunderstanding was resolve. Photo No. 02 of Annexure XI.
4	Issue: in some area, the water in conduit is lower and the land level is at up level, water supply to that land was difficult. Solar pump installation and its location was disputed. Issue on DL01 site.	Meetings held on March 2, 2024 in Shoongri.	The matter was discussed with Mr. Abdul Hakeem baba and Master Inayat Ullah, they are agreed on solar pump installation and location is finalized with them shown their consent from their tribes. The photographs are shown as Photo No.03 of Annexure XI.
5	Issue: On behalf of the community, Agha Rafiq emailed a complaint to ADB that stone is using in channel construction and the channel is not covered by RCC slabs to prevent children, animals and earth chocking.	Meetings in Kharzan Regarding the issues at RD 0+000 to 300, 0+300 to 0+620 and 0+620 to 0+921. The meeting was also arranged at PMO on March 6, 2024.	The mater was discussed with community in Kharzan that the work is done as per approved design, after detail dialog with them, they agreed to continue the work and requested through written application to cover the channel through slabs.  The PD called him at PMO and discussed in details. At the end of the discussion, the PMO clarified that technically, there is no need of RCC. However, your demand will be sent to the ADB for the approval of VO and cost. He agreed and become satisfied. Minutes of meeting is provided in the Annexure X. Photographs of the meeting is provided as photo No.04 of Annex-XI.
6	Issue was raised by Wadera Muhammad Hayat and his sons that the approved water channel is useless and will not irrigate the whole CCA full land of the area. Changes in water channel was	Meeting arranged in Hatachi DR1 on March 2,2024.	After detailed discussion, they agreed to allow the water channel of the same length with changes in location. The proposed location is more feasible and fruitful if approved. The issue is resolved subject to the approval. The meeting photographs are provided as photo No.05 of Annex-XI.

S.No.	Type of Issue with Location	Meeting held with Date	Outcome/Remarks
	demanded to irrigate maximum land. Meeting in Hatachi DR1 <sup>2</sup> .		
7	Issue: Flood protection Bund 04 B is disputed and land owners want to changes in location of Bund 04 or drop it from the work.	Meeting held in Shoongri band 04 B on 2-3-24.	On May23, 2024, community requesting to construct the bund 04 B with little bit changes in location without -tive impacts on the land of other people. Meeting Photographs are provided as Photo No. 06 of Annexure XI.
8	Kharzan. Bund 1. issue: Community demanding additional way for rainwater with Bund 1 and stopped the work on Bund.	The community activist Dr. Habib Ullah who stopped the work on Kharzan Band 1 and demanding for additional passage to the rainwater with Bund 1. Meeting conducted on May 23, 2024.	The issue was discussed with the community and several options were found and forwarded for decision. The decision was to be taken by the management and found the best possible option shared with complainant and he is agreed. The satisfaction letter received from Dr. Habib Ullah (Annex-IX) Photograph is provided as Photo No. 07 of Annexure XI.

**ii) Killi Sardar Akhter Subproject.NCB-06, ZRB Zhob**

Concern	Resolution
The land owners of village Churamalai do not willing to provide land to construct abutment 2 water channel and pipe culvert on RD 40+830.	The complaint was based on misunderstanding, few farmers gathered unexpectedly, seemingly eager to voice their concerns and issues to someone in a position of project authority to resolve that constructing an abutment 2 water channel and pipe culvert at RD 40+830 would result in the loss of their private land. Although the construction was as per design, the farmers refused to allow the construction of the channel through pipe culverts. They were assured that the construction up to that point would be completed without acquiring their land, which alleviated their concerns. Therefore, the VOs report is not relevant to the concerns of the farmers in Churamalai village, as their apprehensions were unrelated to the VOs' impact assessment."

**iii) Complaint from Killi Hazrat Saheb, Siri Toi Dam Subproject.ICB-01, ZRB Zhob**

116. The first complaint was started in January 2024 with a single concern regarding damage of road. The PMO assured the complainant to repair the road after completion the project. The complainant did not agree. Meanwhile a Youth Committee of Killi Hazrat Saheb came forward with multi demands which carry no legal weightage but they have approached to ADB to fulfil their demands.
117. The following is a detailed description of their demands and responses from PMO. These are already submitted to ADB. The complainant of Killi Hazrat Saheb is still stucked for their demands.

**GOVERNMENT OF BALOCHISTAN  
IRRIGATION DEPARTMENT  
Balochistan Water Resources Development Sector Project**

**Application of Youth Action Committee, Killi Hazrat, Zhob (Mr. Israr ul Haq and Mr. Muheebullah and others)**

During the ADB Review Mission's visit to Siri Toi Dam on 13<sup>th</sup> July, 2024, a group who call themselves Youth Action Committee Killi Hazrat met the Project Director (Mr. Sufyan Durrani) and Assistant Project Engineer (Mr. Abu Bakar) at the site camp and presented a fresh application. The Youth Action Committee's participants were as follows:

1. Mr. Israr ul Haq s/o Sana ul Haq,
2. Mr. Muhammad Tahir s/o Shafi ul Haq,
3. Mr. Naeem Shah s/o Amin ul Haq,
4. Hafiz Shams ud Din, and
5. Mr. Muheebullah

In the current application, the same concerns and issues have been presented that were presented through the complaints of Mr. Israr ul Haq vide his emails to ADB dated 25<sup>th</sup> March, 2024 and 30<sup>th</sup> April, 2024 and by Mr. Muheebullah vide his email to PMO dated 15<sup>th</sup> June, 2024, both of which were duly corresponded by the PMO.

The application is submitted in Urdu language (attached herewith) and its English translation is also attached. The annotated replies of the PMO that were informed to the Committee are provided in the following table:

Concern No.	Details of Concern	Reply of the Concerns
1	Road is destroyed by the Contractor. He should manage diversion for the road safety.	The PMO assured the Committee many times that reconstruction of road is provided in the Variation Order (that is under process of approval). When the dam construction is near completion, the road will be reconstructed after the heavy machinery for dam construction has been demobilized. Otherwise, if the road is reconstructed on the demand of the Committee right after approval of the VO, the same complaint of damage to the newly constructed road would resurface in future.

Concern No.	Details of Concern	Reply of the Concerns
		<p>Moreover, the Contractor has made a complete diversion of the existing road and is using diversion for transport of its vehicles and machinery.</p>
2	<p>The Contractor is using our sand, soil and stone for the construction of dam. We need its royalty.</p>	<p>The sand, soil and stone are being used from the un-settled land that has been duly handed over to the Project by the Land Collector / Deputy Commissioner Zhob.</p> <p>As earlier informed to the Youth Action Committee vide PD's email dated 25<sup>th</sup> June, 2024, to provide private land ownership documents of the land from where the Contractor is using sand, soil and stone however they could not provide the same.</p> <p>Moreover, it was again explained to them that "Royalty" cannot be provided to the Youth Action Committee Killi Hazrat by the Contractor under any rules and this demand of theirs is illegal. It was further explained to them that royalty is only to be paid to the Mines and Minerals Department, GoB if any private person or entity is engaged in construction activity for private purposes but no royalty is paid by such entity when they have been sanctioned by the Government to do Government projects. The Committee however insisted that it is the "norm" and the Project should force the Contractor to pay 'Royalty' to the</p>

Concern No.	Details of Concern	Reply of the Concerns
		Committee or the Committee would forcibly stop the construction activities. The Project Director explained that if such drastic action is taken by the Committee, it would tantamount to obstruction of government functioning for fulfillment of an illegal / unjustified demand and the PMO would be forced to report it to the Civil Administration, Zhob for an appropriate action.
3	The Contractor has established camp office without their approval and without paying its rent.	It was explained to the Committee that the camp is established on un-settled land and not on private land. The un-settled land has already been duly handed over to the Project by the Land Collector / DC Zhob. Under the prevalent Rules, no rent is admissible to the Youth Committee for establishment of site camp on unsettled land, thus this demand is also illegal and unjustified. However, the Committee insisted that it is the "norm" and the PMO should force to Contractor to pay rent. The Project Director informed that the PMO could not fulfill this demand of the Committee and if they would further force the Contractor to seek rent then the matter would have to be reported to the Civil Administration.
4	The Contractor is using blasting material for excavation and other harmful material is not properly disposed, due to which our 11 cows	It was informed to the Committee that when it was informed to ADB that such an event had occurred, the social team visited Killi Hazrat and asked for proof

Concern No.	Details of Concern	Reply of the Concerns
	<p>and several sheep/goats have died. We need compensation for its loss.</p>	<p>to be provided that 11 cows and several sheep had died so that compensation could be assessed but no proof could be provided by the community. Hence this event is not true. In this meeting, the Committee was again asked to provide proof of any such event but they did not provide the same. They did not share any pictures or proof of dead animals near the camp area.</p> <p>Furthermore, the whole camp site is fenced and FC security personnel posted on the perimeter (photos enclosed). No animal can enter in the area.</p> <p>Even furthermore, the camp has been visited by the External Environmental Monitor (3<sup>rd</sup> Party Monitor) as well as ADB's Environmental Teams and no such non-compliance of the SSEMP has been witnessed or reported. All used material is well managed by the project environment expert according to SOPs.</p>
5	<p>Below standard construction material is being used by the Contractor, which may be dangerous in the future.</p>	<p>Mr. Israr ul Haq showed the Project Director a photograph in his cellphone of boulders being laid in the stilling basin of the spillway by the Contractor's staff. He informed that all of the spillway should be constructed with reinforced cement concrete (RCC) whereas the Contractor is using</p>

Concern No.	Details of Concern	Reply of the Concerns
		<p>boulders which he conceals with concrete.</p> <p>The Project Director inquired if there are any Civil Engineers among the Youth Action Committee members. Mr. Israr informed that he is a Geological Engineer. When asked by the PD if he is aware what 'Plum Concrete' is? He informed that he does not know. The Project Director explained that wherever mass concrete is required like in the stilling basin of Siri Toi spillway; boulders (plums) are used to make it economical. The PD informed that constructing the stilling basin completely in RCC is unnecessary and unviable.</p> <p>Furthermore, it was informed that the PMO has provided a detailed response to this concern of quality in construction along with assurance about the same concerns raised by Mr. Muheebullah (present) in response to his email referred above.</p>
6	That the crush plant and plant nursery are installed on their land for which the Contractor neither consulted with them (complainants) nor obtained their permission.	It was explained again that the crush plant and nursery are situated on un-settled land that belongs to the Government and duly handed over to the Project by the Land Collector/DC Zhob.
7	The PD and Contractor are requested to avoid contact with individual community members or conduct	The PD explained to them that under the ADB's safeguards policy, the PMO cannot refuse dialogue with any member of the Community who may

Concern No.	Details of Concern	Reply of the Concerns
	meetings with individuals and hold meetings only with this Committee.	approach the Project authorities. The PD has always held meetings with whoever has approached the PMO in the past, whether an individual or group /committee for useful outcome.
8	We people wanted to visit the site but the security guards don't allow or permit to enter too late.	It was explained to them that the construction site is not a thorough fare. There are heavy construction machinery operating in the area and casual visitors are not permitted for the security of the camp and its staff by the security personnel and for the visitors' own safety for risk of injury from construction machinery or falling debris. Permission to enter camp site takes time due to security SOPs of security personnel.
9	We tried several times to sit and talk with the Contractor to solve the issues but he does not agree.	It was informed to the Committee that all the concerns that have been raised by them in this meeting or in previous correspondence to ADB or PMO do not relate to the Contractor. Any other genuine concerns can still be discussed with the PMO. However, the PMO is not in favour of Youth Committee's direct interaction with the Contractor because from what has been documented above, the Committee could stress the Contractor to pay them "Royalty" and "rent" as a "norm" which could result in a clash between them and adversely affect the Project.

## 7.8 MEETINGS/FIELD VISITS

118. Apart from the meetings with GRCs, the following meetings were arranged to discuss various matters of the project mentioned below.

Sr.No.	Date	Nos. of meetings	Officials	Activity Carried out
1	23 & 25-1-2024	02	Resettlement Expert, Siri Toi Dam Subproject, Zhob.	Meetings with DC Zhob Provision of land compensation data on monthly basis.
2	24-1-2024	03	Resettlement Expert and Community Dev. Specialist.	Meetings with local communities for CAD works.
3	In. Feb, March and May. 24	03	Community Development Specialist.	Meetings with the local communities, Contractors and project consultants to resolve various minor concerns/issues in ZRB and MRB project area.

## Annexure- II: Updated Gap Progress- Up to June. 2024

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
Output 1: Irrigation Infrastructure constructed and improved					
1.1 Ensure women's participation in consultations for need assessment during sub-projects (dams, weirs, watercourses, canals) design and construction	1.1.1 50% of all consultations include at least 30% women participation. 1.1.2 At least 3 women-only consultations conducted (1 consultation for each core subproject). (2016 baseline: Not applicable)	Q3 2019 - Q1 2021 Q3 2019- Q3 2021	<u>Brief Previous QPRs GAP Status:</u>  In 23 killies of 6 subprojects including MRB and ZRB, total of 46 community consultations/awareness-raising activities were conducted – out of a total of 46 consultations, 23 consultations were conducted with 531 (41%) males, and the same number of consultations were arranged with 769 (59%) females.	SDDRs available on the ADB website	Completed
1.2 Conduct needs assessment to determine the communities' choices of domestic water supply locations, washing facilities, water collection points, and other like facilities	1.2.1 Women's groups consulted in the needs assessments during subprojects' design and construction. 1.2.2 Needs assessment report reflects inputs from women's groups. 1.2.3 Communities' and women's groups' inputs are considered in the subprojects' designs and contracts	Q3 2019 – Q3 2021	<u>Brief Previous QPRs GAP Status:</u> In 33 villages of 6 subprojects including MRB and ZRB, consulted 839 women regarding their need assessment. According to the need of women 8 Social facilities are constructed in 2 subprojects (Ahmadzai & Karkh)  <u>Current Progress:</u> the work is initiated on others social facilities which are under construction.	Constructed facilities pictures are available.	All facilities will be completed on the given timeline. The reports submitted reflect their needs assessment.
1.3 Install facilities in irrigation schemes to enable women's safe and improved	1.3.1 At least 30% of irrigation schemes targeted for construction/ rehabilitation have	Q4 2019 to Q4 2023 PMO and PIO with the assistance of Social & Gender Specialists and the	<u>Brief Previous QPRs GAP Status:</u> Irrigation subprojects while in the Karkh area, the contractor is away from the resettlement area the required facilities will be provided.	Meeting Pictures and report	Status: 1.3.1 The women demand and necessity have been incorporated into the design for women's

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
access to water for domestic use	installed facilities for women's safe and improved access to water for domestic use	field offices in MRB and ZRB.	In Irrigation Schemes 3 water collection points/ washing points. 5 wazu place of Karkh Valley Dev. Subproject achieving 100% targets.  <u>Current Progress:</u>  The remaining designed and social structures are under construction.		improved access to water for domestic use. The social assessment and Gender Development specialist discussed with CRE at Quetta and REs at sites to consider these social facilities on a priority basis during the construction.
1.4 Document the impact of increased access to water for domestic use on women's time poverty.	1.4.1 Impact study report includes quantitative and qualitative results of improved access to water for domestic use on women's time poverty	Q2 2022 – Q4 2024	Being followed	-	Status: The NGO will be hired to conduct an impact study to assess the benefits of improved water facilities on the poverty of the poor women community.
1.5 Ensure that all eligible and entitled women are aware of and get their rightful compensation as vulnerable affected people	1.5.1 All affected women given orientation on compensations and the process of claiming compensation 1.5.2 All entitled affected women provided with support to facilitate their opening of bank accounts to receive compensation	Q3 2019- Q4 2024	<u>Brief Previous QPRs GAP Status:</u> In all subprojects' affected women were not found regarding land, structures, trees, and crops. The revenue record also indicated that the land of women was not under impact. So, there is no need for a bank account opening to receive compensation.	Revenue Data	In balochistan due to culture constraint the land holders are mostly men. Therefore there is no record on land in revenue department that belongs to women
1.6 Ensure women's Participation in Grievance Redressal Committees (GRCs)	1.6.1 At least 25% of all GRCs are women-only GRCs	Q3 2019- Q4 2024 Consultants	<u>Brief Previous QPRs GAP Status:</u> In all rehabilitation schemes, women's participation was ensured and documented in	Reports and Documents are available.	The local culture does not allow to work independently by the women in irrigation

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
	1.6.2 For areas with no women-only GRCs, separate GRC meetings are held for women		QPR and semiannual reports. Women's participation in all GRCs was 33%.  The target of GRCs has already been Achieved		systems or committees etc. However, efforts were made to form separate GRCs for women members.
Output 2: Command area and watershed protection established and/or rehabilitated					
2.1 Conduct awareness-raising sessions in ZRB and MRB communities on safe drinking water, waterborne diseases and control, and health and hygiene practices	2.1.1 Two (2) awareness sessions in each subproject area (with 2 females-only sessions) conducted on health, hygiene, safe water usage, waterborne diseases, and control (2016 baseline:0) 2.1.2 At least 80 women and girls participated in the awareness-raising sessions on health, hygiene, and safe water usage, among others.	Q3 2019 - Q4 2024  The tasks of 2.1, 2.1.1, and 2.1.2 will be carried out by the NGO.	<u>Brief Previous QPRs GAP Status:</u> During the field visits of MRB & ZRB, the team of Tarqee Foundation (NGO) and PMO/PIO conducted 9 basic awareness sessions conducted by their social team in which 210 females participated and trained on clean drinking water, waterborne diseases, health, and hygiene.  <u>Current Progress:</u>  During field visits of MRB and ZRB, the team of consultant conducted 2 basic awareness sessions on clean drinking water, waterborne diseases, health, and hygiene 50 women participated.	Field Visit Reports & Pictures	Status: Tarqee Foundation (NGO) Social team conducted awareness sessions by professional at the filed. The awareness sessions are delivered through brochures and practical exercises.
2.2 Conduct awareness-raising sessions on the nutritional value of food for women and girls including awareness of mother and child healthcare	2.2.1 Two awareness sessions in each subproject area were conducted on the nutritional value of food for women and girls including awareness of mother and child	Q3 2019 – Q4 2024 Being arranged through NGO	<u>Brief Previous QPRs GAP Status:</u>  The activities have been imparted in this quarter and implementation will start from next quarter.  <u>Current Progress:</u>	Session report Attendance & Pictures	

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
	health care (2016 baseline:0) 2.2.2 At least 80 women and girls participated in awareness-raising sessions on food and nutrition, and mother and child healthcare		Four sessions were held, specifically focusing on Maternal and Child Health Care (MRB & ZRB), with an emphasis on the nutritional value of food for women and girls. These sessions engaged 80 participants, primarily women. The purpose of these session was to empower women with valuable information that can positively impact the well-being of both themselves and their children		Target Completed
2.3 Conduct training on kitchen gardening that includes growing fruits and vegetables for domestic use, food processing, and handling of agrochemicals	2.3.1 At least 2 training conducted for women and girls for both subproject areas 2.3.2 At least 100 women and girls trained in kitchen gardening (2016 baseline:0)	Q3 2019 – Q4 2024 The tasks of 2.3.1, 2.3.2, 2.4.1,2.4.2, 2.5,1, and 2.5.2 will be carried out by the NGO	<u>Brief Previous QPRs GAP Status:</u> A field visit of MRB & ZRB was carried out, and during the visit collected basic information and conducted 300 TNAs on Capacity Budling, for livestock management 140 women were identified, 60 for kitchen gardening, 60 for HVA farming, and 40 for food processing at the HH level from the community which is submitted for further processing.  In previous quarter overall 13 training sessions were imparted in which a total of 325 farmers trained on different sessions (9 training session were conducted with men farmers in which 150 were trained on O&M of Solar power, drip irrigation and 75 trained on post-harvest management, agribusinesses. Whereas 4 training session were conducted on HVA of Agri farming & Kitchen Gardening and trained 100 women beneficiaries) these training session were conducted on both River Basins  <u>Current Progress:</u> In the current quarter 24 training sessions were imparted in which a total of 595 farmers	TNA report and identified participants list.  Training Reports/Pictures	Status: Total 1050 farmers will be trained of which 300 will be women participants (140 women will be trained on livestock management and production, 60 women on Kitchen gardening and 60 women on HVA- value chain and Agribusiness and 40 women on food processing).

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
			(men and women) trained on different sessions 380 farmers trained on HVA-farming in 15 sessions, 25 on Pre-Post harvest management, agri-business in 1 session. 50 women trained on Pre-Post harvest management, agri-business in 2 sessions. 140 women trained on livestock Production and Management in 6 sessions.		
2.4 Conduct training for women on value addition in fruits and vegetables and livestock care.	2.4.1 At least 2 consultations were held in the subproject areas for selecting women for training 2.4.2 At least 250 women trained for income-generating high-value agribusinesses (2017 baseline: 0)	Q3 2019 to Q4 2024  NGO/PIO/Consultants	<u>Brief Previous QPRs GAP Status:</u> In MRB & ZRB for the provision of livestock for production purposes the team collected 138 individual applications from women community members. During the field visit the team validated and assessed the applications at a ground level to verify the actual status.  Formed female groups in six grant areas for livestock caring and production training.	Reports & Pictures	

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
<p>2.5 Support the establishment of pilot demonstration sites for women-led small-scale agri-businesses for fruits and vegetables.</p> <p>2.6 To establish plastic tunnels for fruit and vegetable drying for women.</p> <p>2.7 Piloting Demonstration of agri-processing facilities men managed.</p>	<p>2.5.1 At least 22 women-led small-scale income-generating agribusinesses launched (2017 baseline: 0)</p> <p>2.6.1 At least 6 women led-small scale for income generating and livelihood enhancement 3 in each subproject.</p> <p>2.7.1 Two processing plants for fruits and vegetables were established in each subproject area, for small-scale agri-businesses</p>	<p>Q3 2019 to Q4 2024</p> <p>NGO/PIO/Consultants</p>	<p><u>Brief Previous QPRs GAP Status:</u> 2.5.1 138 women are identified. During the reporting period of total of 138 approved women received goats/sheep in both rivers and the 100% target was achieved. Cash incentive of to 138 women for fodder and treatment of their goats/sheep provided by the project.</p> <p>2.6.1 6 women were identified for a plastic tunnel for fruits and vegetables drying 3 in each subproject (MRB and ZRB).</p> <p>2.7.1 Identification of beneficiaries in each sub-project is completed. Contract awarded site selection is completed.</p> <p><u>Current Progress:</u> A follow-up visit was conducted of 60% of livestock beneficiaries the livestock were found healthy and in the production phase. 2.6-7. The contract was awarded to a firm for procurement of equipment and Machinery. The Equipment and Machinery reached to both MRB &amp; ZRB sites and the provision will be carried out in next quarter after consultation with farmers.</p>	<p>Field visit reports for each activity, distribution reports, and cash receipts of each beneficiary are available in soft and hard documents.</p> <p>Applications and required documents.</p>	<p>Equipment and Machinery will be procured and then will be handed over to beneficiaries.</p>
<b>Output 3: Institutional capacity strengthened</b>					
3.1 Conduct gender training workshops for staff and consultants of EA and	3.1.1 At least two (2) gender training workshops	Q3 2019 - Q4 2024 3.1.1 and 3.1.2 by an NGO			

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
IA, and for contractors, that include an orientation on the Gender Action Plan	conducted for relevant staff and consultants of EA, IA, and contractors 3.1.2 At least 80% of project staff participated in the gender training workshop				
3.2 Recruit social and gender staff for the implementation and monitoring of the gender action plan	3.2.1 One (1) social and gender specialist as a core team member at PMO and PIO hired 3.2.2 One (1) social and gender specialist in project management consultants hired 3.2.3 Four (4) female social organizers (2 each at the field office) were hired and provided with transportation facilities.	PMO Q3 2019 -Q4 2024	The positions were properly announced at the province and district level. Then test and interviews were conducted by a panel. On the basis of the test and interview, the selection was made.	–	Target Achieved
3.3 Ensure reporting of gender equality Results	3.3.1 All project periodic reports (quarterly and annual progress reports), as well as the project completion report include progress on GAP implementation, as	Q4 2019 - Q4 2024	Being followed		Quarterly and Semiannual reports are being prepared.

GAP Activities,	Indicators and Targets,	Timeframe and Responsibility	Current Progress (What to Report during the current quarter)	Means of Verification/Data Reports	Next Step/Remarks
	well as gender equality results				
3.4 Document gender impacts and results of the project	3.4.1 One (1) gender impact study conducted by project end	Q4 -2024 Will be prepared	In process		PMO and PIO with the assistance of the Social and Gender Specialist and the field offices in the MRB and ZRB will keep all the documents

**Annexure- VI: ADB,s Checklist of Involuntary Resettlement**

<b>A. Project Data</b>			
Country/Project No./Project : Pakistan, BWRDSP-Loan 3700-PAK			
Title Project Design, Construction Supervision and Implementation Support for Balochistan Water Resources Development Sector Project. Revised SDDR of Command Area Development Works under Siri Toi Dam Project, ZRB.			
<b>B. Involuntary Resettlement Category</b>			
[ ✓ ] New                      [ ] Re categorization — Previous Category [ ]			
<input type="checkbox"/> Category A	<input type="checkbox"/> Category B	<input checked="" type="checkbox"/> Category C	<input type="checkbox"/> Category FI
<b>C. Comments</b>			
There is no land acquisition and physical displacement involved in the sub-project. There are no persons directly or indirectly affected by the Command Area development Works under Siri Toi Dam Project. Similarly, there is no loss of trees, crops, structures/ buildings and livelihoods. Based on the ADB involuntary resettlement impact categorization, screening checklist, this sub-project falls under category “C” and Due Diligence Report is prepared for the sub-project.			
<b>E. Approval</b>			
<b>Prepared by:</b> Rana Abdur Rehman 		<b>Reviewed/Cleared by:</b>	
PIC, Social Safeguard Specialist: Date: 25-5-2024			
<b>Probable Involuntary Resettlement Effects</b>	<b>Yes</b>	<b>No</b>	
<b>Involuntary Acquisition of Land</b>			
1. Will there be land acquisition?		✓	Sub-project does not involve any land acquisition. The sub-Project involves Command Area Development Works under Siri Toi Dam Subproject, for which no land is required. No resettlement impact was found.
2. Is the site for land acquisition known?		✓	No Land acquisition involved

3. Is the ownership status and current usage of land to be acquired known?		✓		Settled and unsettled land will be levelled for agriculture purpose.
4. Will easement be utilized within an existing Right of Way (ROW)?		✓		All the activities will be carried out to level the barren and hilly land for irrigation and agriculture purpose.
5. Will there be loss of shelter and residential land due to land acquisition?		✓		
6. Will there be loss of agricultural and other productive assets due to land acquisition?		✓		
7. Will there be losses of crops, trees, and fixed assets due to land acquisition?		✓		
8. Will there be loss of businesses or enterprises due to land acquisition?		✓		There will be no displacement of people's businesses etc.
9. Will there be loss of income sources and means of livelihoods due to land acquisition?		✓		
<b>Involuntary restrictions on land use or on access to legally designated parks and protected areas</b>				
10. Will people lose access to natural resources, communal facilities and services?		✓		
11. If land use is changed, will it have an adverse impact on social and economic activities?		✓		
12. Will access to land and resources owned communally or by the state be restricted?		✓		
<b>Information on Displaced Persons:</b>				
13. Any estimate of the likely number of persons that will be displaced by the Project? [ <input checked="" type="checkbox"/> ] No [ <input type="checkbox"/> ] Yes If yes, approximately how many? Not applicable as No one with kiosks will be relocated.				
14. Are any of them poor, female-heads of households, or vulnerable to poverty risks? [ <input checked="" type="checkbox"/> ] No [ <input type="checkbox"/> ] Yes				
15. Are any displaced persons from indigenous or ethnic minority groups? [ <input checked="" type="checkbox"/> ] No [ <input type="checkbox"/> ] Yes				

KEY CONCERNS (Please provide elaborations on the Remarks column)	YES	NO	NOT KNOWN	Remarks
6. Do such groups speak a distinct language or dialect?		✓		
7. Has such groups been historically, socially and economically marginalized, disempowered, excluded, and/or discriminated against?		✓		
8. Are such groups represented as "Indigenous Peoples" or as "ethnic minorities" or "scheduled tribes" or "tribal populations" in any formal decision-making bodies at the national or local levels?		✓		
<b>B. Identification of Potential Impacts</b>				
9. Will the project directly or indirectly benefit or target Indigenous Peoples?		✓		
10. Will the project directly or indirectly affect Indigenous Peoples' traditional socio-cultural and belief practices? (e.g. child-rearing, health, education, arts, and governance)		✓		
11. Will the project affect the livelihood systems of Indigenous Peoples? (e.g., food production system, natural resource management, crafts and trade, employment status)		✓		
12. Will the project be in an area (land or territory) occupied, owned, or used by Indigenous Peoples, and/or claimed as ancestral domain?		✓		
<b>C. Identification of Special Requirements</b> <i>Will the project activities include:</i>				
13. Commercial development of the cultural resources and knowledge of Indigenous Peoples?		✓		
14. Physical displacement from traditional or customary lands?		✓		
15. Commercial development of natural resources (such as minerals, hydrocarbons, forests, water, hunting or fishing grounds) within customary lands under use that would impact the livelihoods or the cultural, ceremonial, spiritual uses that define the identity and community of Indigenous Peoples?		✓		
16. Establishing legal recognition of rights to lands and territories that are traditionally owned or customarily used, occupied or claimed by indigenous peoples?		✓		
17. Acquisition of lands that are traditionally owned or customarily used, occupied or claimed by indigenous peoples?		✓		

**Anticipated project impacts on Indigenous Peoples**

Project component/ activity/ output	Anticipated positive effect	Anticipated negative effect
18. Earth work to strengthen the existing channels	Not applicable	Not applicable
